

Explanatory Statement 2 of 2024
Implementing changes to the Product-Specific Rules Annex of the
Regional Comprehensive Economic Partnership Agreement

Nature and timing of proposed treaty action

1. The proposed minor treaty action is to bring changes to Annex 3A (Product-Specific Rules) of the Regional Comprehensive Economic Partnership Agreement (RCEP) into force. RCEP is a plurilateral Free Trade Agreement (FTA) entered into by Australia, Brunei Darussalam, Cambodia, China, Indonesia, Japan, the Republic of Korea, Lao PDR, Malaysia, Myanmar, New Zealand, the Philippines, Singapore, Thailand, and Vietnam.
2. RCEP includes a provision setting out the process for RCEP Parties to agree amendments to Annex 3A as a result of periodic amendments to the World Customs Organization's (WCO) Harmonized Commodity Description and Coding System (Harmonized System) (RCEP Article 3.34). RCEP provides that the Parties shall consult to prepare updates to *Annex 3A* that are necessary to reflect changes to the Harmonized System, and that such changes to *Annex 3A* are carried out without impairing the Product-Specific Rules (PSR) and completed in a timely manner. Further:

'The transposition of Annex 3A (Product-Specific Rules) that is in the nomenclature of any revised Harmonized System following periodic amendments to the Harmonized System, shall be adopted by the RCEP Joint Committee, upon recommendation of the Committee on Goods. The Parties shall promptly publish the adopted transposition of Annex 3A (Product-Specific Rules) in the nomenclature of the revised Harmonized System.'

3. On 30 June 2022, in accordance with RCEP Article 3.34, the RCEP Joint Committee, comprised of representatives from each RCEP Party, adopted a recommendation of the Committee on Goods to transpose the Annex 3A from Harmonized System HS2012 to HS2017 and from HS2017 to HS2022 nomenclature.
4. The amendment is a technical exercise to align the PSR with the latest nomenclature of the WCO Harmonized System. PSR are agreed rules for determining a product's origin for the purposes of accessing preferential tariff treatment under FTAs, including RCEP. Annex 3A is a schedule in RCEP aligning various tariff headings and sub-headings with the relevant PSR. It is 159 pages in length and consists primarily of a table aligning various tariff headings and sub-headings with the relevant PSR.

Practical and legal effect

5. Annex 3A is based on the Harmonized System. The Harmonized System is an international nomenclature for the classification of traded products, covering thousands of commodity groups, arranged in a logical structure and supported by well-defined rules to achieve uniform classification. The Harmonized System is used by more than 200 economies, including Australia, as a basis for customs tariffs and the collection of international trade statistics. Over 98 per cent of merchandise in international trade is classified using Harmonized System nomenclature.

6. The WCO updates the Harmonized System every five years to keep it relevant to the needs of modern international trade. The latest update was in 2022. The proposed treaty action is a technical exercise to align Annex 3A with the latest Harmonized System nomenclature. It does not alter Australia's existing rights or obligations under RCEP.

Reasons for Australia to take the proposed treaty action

7. The proposed minor treaty action is consistent with Australia's interest in delivering more opportunities for businesses globally. Transpositions are important so businesses can trade with the certainty of knowing which PSR applies to their goods.
8. Transposition to the HS2022 nomenclature would reduce the administrative burden on traders and customs officials who otherwise would need to translate between different Harmonized Systems that use different codes for the same product depending on where it was being imported from or exported to, but which would not ultimately change the customs duty levied on the product.

Implementing Legislation

9. No legislative changes would be required. The *Customs Act 1901* defines 'Harmonized System' to mean the later version of the Harmonized System if Annex 3A is amended or replaced to reflect the later version.
