

Monday 25 May

To the Standing Committee on Rural + Regional Affairs Transport  
Dear Senators, **Subject:** Pre Weighing or Post Weighing of Livestock, Pre Weighing gives the buyer + Seller the weights before auction. Post weighing gives the buyer an advantage over the Seller, as he buys on estimated weight and this can cost Sellers dearly.  
**Subject:** Letting up the Farmer + Graziers Direct Meat Supply in Victoria, Post 2nd world War, because sellers in the old Newmarket yards, were so unhappy with prices they received, they turned to their own Meat Processing, It had magnificent support with the prices to the breeders greatly improved, but then it collapsed, not because of lack of supplies, The Growers stood it up again, and it paid good profits, but the same thing happened the Growers did not resurrect it. The Fall of British meats is another blow to the Meat producers, The constitution Rule Where by the Federal Treasurer is the one who says sell, or not to sell, Senators this needs to be reviewed, and placed in the hands of a Committee that has connections Australia Wide, to advise the Govt whether it is in the Best Interest of Australia.

"Subject, TPP." Twelve will make up Membership from various parts of the world. Page, Stock Land, May, 7, 2015, Minister Robb, quotes TPP a boon for Agriculture. The Weekly Times, May the 6<sup>th</sup> 2015, Fears of TPP by Rob. Harris, writes Australia Exports may be derailed by Domestic U.S. Politics. Minister for Trade Mr Robb, has drawn criticism along with the TPP, over Secrecy of Negotiations, and the inclusion of provisions allowing companies to sue "foreign" Governments. A Presidential Candidate for the American Elections, complains of the fact that no one can see it, except a few "Senators." It is your opportunity to report what is contained in this document, when you look at how the "WTO" acts on our lamb exports, "Australia is so valuable" to allow any control of its exports, "Subject, Biosecurity, Quarantine." It is pleasing to know, that the new, Post Entry Quarantine Facility at Nicklehams Vic. on the outskirts of Melbourne, has begun construction. Biosecurity especially livestock is a concern, When it is known how many "Sengious" diseases there are in the World, at all costs we must protect our meat Exports along with all other food exports that we sell all over the World. Please Pay attention to the story on "Human Faeces".

Subject: W.T.O. Control over Australian Imports to  
the E.C. Figures from an "Elder Smith Manual."  
1941. Showed Australia delivered to England.  
early days of 2<sup>nd</sup> world War 200-000 thousand tonnes  
of Meat. 12 million tonnes of Wheat 500-000 tonnes  
of Flour. In the early 1960's Sir John McEwan  
set up an advisory Committee to advise on lamb.  
Ron McPherson a stud breeder of Dorset Horns from  
Melton Vic, was nominated by the Executive of the  
VWWGA, 24 Collins Street Melbourne, now the VFF.  
to fill the vacancy, after attending many meetings  
the members could ~~not~~ not make out what it  
was meant to do, On Resigning from the VWWGA and  
moving to Junee NSW, He learnt some years later  
that England had joined the E.C. and that New Zealand  
had gained 230-000 tonnes of Meat to the E.C. from  
England. From the 1941 figures quoted, Australia  
was left with "19-500" tonnes per year and that if  
we exceed this figure the W.T.O. will place an above tariff  
on Australia. On his recent visit to Australia the Mayor  
London, Mr Boris Johnson made reference to the way  
Australia was treated. A note of interest. Woolworths  
Countdown Stores NZ Imported Aust Lamb for Chris'amas  
& sold it for \$10-99 per kilo, while NZ Lamb was \$18-49  
a kilo. Info Source: "WA Farm Weekly, Jan 8. 2015"

Subject: Chinese to Graze National Park.

Weekly Times. Page 10 April the 1<sup>st</sup> 2015.

The lease has been approved for 99 years. It is believed China will build a 28 Storey Hotel, at Ticola along with a Casino, along with a Air strip capable of handling an Air bus, A 3 Q will be constructed at Dargo High Plains, Where the Dim Cattle breed will be flown in to Establish a breeding Programme. This along with Indonesian Satons bought for breeding cattle, and other properties Australia wide bought for dairy and animal production, posed a disease threat to Australian livestock breeders of Livestock for food Production, a quote when 600 Tonnes of Chinese dirt can be imported at Manure and a goat fast Quarantine, what hope has the livestock industry got, especially with breeding herds down in Voz, take for instance a Beef Cow in America making 4000\$ Senators please be advised that the, Safe and Protection efforts Subject A, Purity of Animal Food. Recently Coppac Meal was imported by a Beef Feedlot, It was growing under standard with Human Faeces, It killed numerous numbers with Beef Measles. Understand Understand that Wagga Uni was doing an investigation, a Dairy farmer friend of mine was informed by letter not to use Coppac Meal for his dairy Cows for milk Production.
