
To whom it may concern

Concerning: **Medicare being used to fund the abortion of unwanted children, because of the child's sex.**

All abortions are the deliberate killing of one human being by another (passing legislation to 'okay' the act does not alter the fact).

To abort a child simply because it is perceived as the 'wrong sex' and therefore unwanted, plumbs even further depths in degradation.

Medicare (taxpayers dollars) should not be used under any circumstances to fund this disgusting practice.

Yours sincerely

Earle Mason
