

Subject : SENATE INQUIRY

“ The Social and Economic Impact of Rural Wind Farms “

We want to express our full support for the Senate Inquiry.

The so-called Green and Clean Energy badly affects humans, animals and nature as such, pretending to save them.

We have lost a more than 2 years lasting fight against an environmental concern concerning wind project on the narrow peninsula Digby Neck.

With a width of 2 and 1/2 km - Fundy Bay to the North and St. Mary's Bay to the South - a noise disaster is happening here since 20 GE 1,5 MW wind turbines got operational by the end of December last year.

Our social peace is gone by recklessly acting wind companies, who "successfully" were splitting communities and even - friends and families.  
Local politicians were turning their backs on us and united with the wind lobby.

Whom shall we trust in difficult times to come ?

We wish you all the best in achieving the necessary breakthrough for the inconvenient truth regarding wind power.
