

---

Please remove Medi-care funding for gender selection abortions.

It is still ceasing a life.

This is not how God intended us to use our money, science or power.

What if you were the baby that was chosen to die because you are a girl.

What if the baby you kill would grow up to be a lovely person never mind a great person.

How can you allow this?

Disprubute the money to other important funding necessities like aiding the poor.

Thank you.

Kind regards

Eleni Samios
