

Dear mr Tabor and MDBA;

My name is Teneeka Andrezza. I am 9 years old at Hanwood public school. My family all live on a farm my whole life and can't imagine having to move away.

On the 14th of October I was at the water meeting with my family. I don't think you know what type of damage you are going to do to my family and the whole of Griffethr. This is why I believe that you should NOT take our water.

Teneeka Andrezza
