Dear Sir/Madame,

RE: Medicare funding for Abortion Bill 2013

I am writing in support of Senator John Madigan's Health Insurance Amendment (Medicare funding for certain types of abortion) Bill 2013 because I strongly feel against the practice of gender selection especially related to the unborn.

As a Medicare paying client I request funding not be given to cases which involve "the termination is carried out solely because of the gender of the foetus" section 17A (1)(b) because such a practice will place a heavy burden on the health of our society. Even the respected UN agencies recognise the need to end discriminatory practices of gender selection and I support their action in this regard. An unbalance of any species has always resulted in damage to the natural law and balance of nature and even more so this would be with regards to human beings. It will also encourage sex trafficking, child abductions and many other gender related criminal activities.

I refuse for my money to be use as blood money in paying for the death of another human being. Please consider carefully your decision because you bare the responsibility and society bares the consequences.

Yours sincerely,  
Margaret Kelly
