EXECUTIVE SUMMARY

Careers Australia welcomes the opportunity to make a submission to the Senate Inquiry 'into the operation, regulation and funding of private vocational education and training (VET) providers in Australia'.

As one of the largest private providers of training in Australia we feel well qualified to assist the committee to understand the very valuable contribution that training – by both the private and TAFE sectors – makes to the lives of people in work.

At the end of the day Careers Australia exists for one reason: to train, re-train and keep in employment men and women, both young and mature aged, across Australia.

Our success as a company can be measured by our graduate's success.

We keep in active contact with all our graduates and our care and attention doesn't end when they leave our classrooms or workshops – it's when we know they have found rewarding work.

That's why Careers Australia has built a network of the largest employers in Australia who employ our graduates or are in constant dialogue as to the skills needed in the workforce today.

Careers Australia has invested in excess of \$45 million to date and will continue to invest in both our physical campuses, but perhaps more importantly our teaching staff. That provides some of the best training facilities available, to support quality training that leads to quality outcomes for our students.

Our students have expanded their career horizons through VET Fee-Help. Just like their cousins or sisters or brothers who have used FEE-HELP to gain a university degree, our graduates embrace the opportunity accessible to them through the scheme.

Careers Australia has a proud story – one we want to tell – and we thank the inquiry members for that opportunity.

We are so keen that you see for yourselves how we operate, we would welcome the committee to visit our campuses and, if they wish, to hold hearings from our facilities.

ABOUT OUR GRADUATES

Below are a few examples of the success our students have achieved, more can be viewed at www.careersaustralia.edu.au/success-stories

PETER ROBBINS (at centre)
Double Diploma of Counselling and
Community Services

At 46 years old, Peter Robbins had it all. A great job as a personal lender with a big four bank, a lovely house and a loving and supportive family. So when new management entered the company and changed things, Peter decided that it was time to bank on a career change.

Wanting to help others help themselves was something that Peter had always enjoyed doing so he knew that enrolling into a Double Diploma of Counselling and Community Services at Careers Australia was the right decision.

“Going back to study wasn’t an easy decision for me. I had to consider my options and how it would impact my family – financially, emotionally and mentally,” he said.

“After I left [the bank] I started domestic cleaning and whilst it was a dramatic change, it took me only an hour to see the positive influence that I was having on people’s lives – helping them help themselves,” said Peter.

He soon began another role as a casual domestic servicer worker and quickly impressed Anglicare with his passion to help others and was promoted to a part-time role within three months. He was soon asked by management to apply for the role of home support services coordinator for the northern Brisbane metro region and due to his outstanding rapport with the patients and his qualifications he was successful.

“I absolutely believe that my Careers Australia Double Diploma was highly regarded with the management team and had an influence on the outcome. I’ve been promoted three times in the past nine months and I’m loving it!

“Doing this course has absolutely changed my life. It gave me the advantage over other applicants, taught me discipline to achieve my goals and I’ve met so many great friends,” he said.

RYAN FINNOCHIO (at left)
Diploma of Engineering

Ryan Finocchio may only be 28 years old but he already has so much to be proud of.

The married, father-of-two knows a thing or two about multitasking, having recently completed his Diploma of Engineering – Advance Trade at the Careers Australia Salisbury campus whilst also completing his Certificate III in Diesel Fitting and working as a fleet manager and mechanic with Traffex, an industry leader in traffic control solutions.

“Ryan’s dedication to his study was second to none”, said Jason Woods, Salisbury campus Engineering Trainer. “Juggling a job, a home life and two children is not an easy feat and is evidence of the dedicated person that he is.”

Matt Godfrey, Engineering Trainer and Assessor said “Ryan is a jovial character and was a great team player in the training space. He had great ambitions and direction, and his experience from his work as a fleet manager really helped him be a mentor to others in the class.”

Ryan is now looking forward to taking on new responsibilities in his current workplace and taking a break from study to spend time with the family.

TENEISHA ROSE
Certificate III in Logistics

Teneisha Rose has always had a love for physical, manual work. Raised in the small town of Mareeba, she loved nothing more than getting her hands dirty and helping her dad in the large sheds.

"I've always wanted to work in a large warehouse and drive a forklift. I've been doing it since I was a young girl, but I never got my licence," she said.

At the age of twenty-one, Teneisha had all the necessary skills to work on a farm, but was finding it difficult to find full time employment and turned to study to build on her skillset and experience.

In November 2014, Teneisha proudly graduated from Careers Australia with a Certificate III in Logistics. With her much needed forklift licence, she has since started working for liquor giant Liquor Land.

"They needed to employ someone with a forklift licence and because I had just got mine and completed all the training I was their first pick and started immediately.

"After being unemployed, this course was the best thing I could have done. It got me out of the house, socialising and wanting to improve myself. It's opened the door to opportunity and was a great investment in my future," she said.

JAZMIN STAIKOS (at right)
Double Diploma of Business and Management

Jazmin Staikos, 22, was determined to kick-start her career after being unemployed since leaving high school in 2008. Unable to find the kind of work she wanted, she enrolled into the Double Diploma of Business and Management with Careers Australia to improve her business skills and employability. Jazmin began working a part time job at McDonald's in November 2013 and was quick to demonstrate her leadership qualities to management.

"When my manager found out I was doing the double diploma, she encouraged me to complete the McDonald's Trainers and Management course. I was absolutely thrilled to be given the opportunity," said Jazmin.

After finishing both courses, Jazmin was promoted to shift manager and following an impressive four months in that role, was transferred to the much larger McDonald's Stanmore store.

"Studying with Careers Australia was the best decision I've made. I am the first in my family to complete double diploma studies so my family is incredibly proud of me.

"I wasn't sure if I had what it would take to do the McDonald's training, but having come so far in my diploma studies, I knew I would have the skills and confidence to be able to finish it."

RAMU FARRELL (at left)
Diploma of Building and Construction

Ramu Farrell has forged an impressive reputation for himself and his company, SRPG, as a leading building company, providing smarter and innovative new homes and renovation solutions.

As a qualified builder in his early twenties, Ramu is privileged to have built new homes among luxurious residential strips. The company's portfolio also includes an array of monumental renovations, adding significant value with their modern and contemporary finishes.

"I've wanted to be a builder since I was eight years old," Ramu said.

"A friend's dad was a builder. He had a big house, a great car, and I remember thinking 'this is what I want'."

Ramu was a qualified carpenter before his 20th birthday and was quick to enrol into the Diploma of Building and Construction in pursuit of his builder's licence.

Now fully qualified, Ramu has employed two apprentices who are also completing their industry training and certificate qualification through Careers Australia.

MASON FASAVALU
Diploma of Business

Gold Coast Real Estate Agent Mason Fasavalu is making a great success of his new career after graduating with a High Distinction from the Diploma of Business with Careers Australia.

Mason's goal, which he expressed in his assignment for the first unit (Manage Personal Work Priorities and Professional Development) was to start a career in Real Estate Office and more specifically to sell million dollar properties.

Mason has been successful in gaining a traineeship at Ray White Surfers Paradise, one of the most prominent Real Estate Offices on the Gold Coast.

Mr Fasavalu has recently sold a property just shy of the \$1m mark, so is well on his way to achieving his goal.

**KELLY GOOD (at right),
AMANDA WEBBER & LISA FRASER**
Diploma of Nursing

Career's Australia students have made a great impression on Peninsula Private Hospital, with not one, but three recent nursing graduates beginning work with the Kippa-Ring based private hospital.

Students Kelly Good, Amanda Webber and Lisa Fraser have each secured permanent full time employment since completing their Diploma of Nursing at Careers Australia in 2014.

Kelly is pleased to be working with her Careers Australia classmates, "Even in the workplace we're still helping each other learn and grow. It's really full on, but I love every minute of it and it's good to know that we have that support network with each other."

Since starting with the hospital, the students have hit the ground running, armed with the skills and real-life experience gained from practice in the simulated hospital ward environment at the Gotha Street campus.

TEAGAN AHERN (at right)
Diploma of Nursing

The future is looking bright for Teagan Ahern, who joined the Wesley Hospital nursing team, having recently graduated from the Diploma of Nursing.

Teagan Ahern has started in the rehabilitation ward and has said "I'm amazed that every skill I learned in the lab and the theory I learned in the classroom at Careers Australia has been used in my new job.

It's exciting how all this learned knowledge fits into our work. The educators at Gotha Street really prepared us all for our jobs and made us work ready."

Program Manager, Susie Gray and Head of School, Lyn Clarke are both immensely proud of the successful job outcomes for the latest nursing graduates, and that they were equally proud of their team of dedicated educators.

"The Wesley Hospital offers an excellent learning ground to further develop their skills and each year we look to employ the best graduates to enhance the level of care that The Wesley provides to its patients," Wendy Zernike, Director of Clinical Education at The Wesley Hospital.

MITCH GUERIN (at left)
Apprentice Electrician

The future is looking bright for Careers Australia graduate Mitch Guerin, who is excited to commence work as an apprentice electrician on February 2 with Australian electro-technology company Nilsen.

Mitch is one of twelve students who were fortunate enough to complete their Certificate II in Electro-technology work placement with Nilsen, the major electrical contractor for the \$1.8 billion Sunshine Coast Public University Hospital project.

Following an impressive two week placement, Mitch was thrilled to have been offered an apprenticeship with the company.

“I’m incredibly excited to know that I’ll be working on this project long term. It was such a great learning experience for me and I look forward to completing my apprenticeship with a company like Nilsen,” he said.

Rohan Anderson, Careers Australia’s Workforce Consulting Manager said “We saw an opportunity to provide an entry level course for job seekers in the electro-technology space and with the assistance of The Work Shop and other partners such as Employment Plus and MIGAS, we have been able to provide twelve locals with the opportunity to complete a qualification.”

The Work Shop, a joint venture between government and industry to facilitate employment and training for the public hospital provided the opportunity for students, including Mitch, to complete their onsite placement.

“I’m grateful to have completed my placement on the site and very pleased that I’ll have the opportunity to contribute to the future of the hospital,” said Mitch.

ABOUT OUR STUDENTS

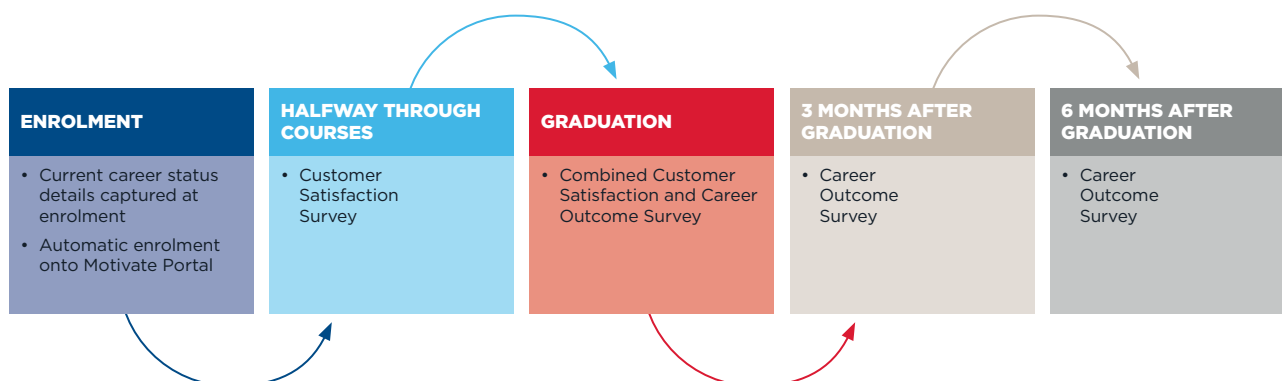

At Careers Australia, we are privileged to play a part in the lives of our students who, like Jazmin Staikos mentioned on page 3, are the first person in their family to have ever achieved a tertiary qualification.

We are approved to provide access to Commonwealth Government loans through VET Fee-Help as well as a range of industry funding schemes such as the Australian Apprenticeship Incentive Program which make our education and training amongst the most accessible in the country. Our courses also feature rolling commencement dates scheduled throughout the year, giving students the flexibility to begin study as soon as possible.

We also undertake national focus groups to gain valuable feedback from our students regarding their experience while studying with us. This feedback is used to improve on our systems and evaluate our current processes.

We also seek student satisfaction ratings through regular surveys to our students. Below is an example of the survey lifecycle for a Diploma course at Careers Australia.

Careers Australia is using an EDUSCREEN assessment conducted during the profiling process which is a tool used to predict the likelihood of a student completing study and what interventions might be required based on their results to support progression.

The tool is the result of study conducted by the University of Rhode Island. Effectively it is a “Psychological Assessment of Readiness to Change” (PARC) survey which identifies students who are most likely to complete their studies as well as those who might benefit from support and those who are not fully committed to taking action. It will enable Careers Australia to deliver effective interventions corresponding to their stage of change: ie their readiness to re-enter education.

Careers Australia provides comprehensive support to our students to ensure they have the best possible chance of gaining a qualification and successful career outcomes.

Our Student Retention Team exists to support and encourage all students enrolled into campus based Certificates and Diplomas. Students are supported from enrolment through to graduation.

Once a student enrolls through any channel or method it is assigned an individual Retention Specialist (RS) to make contact with the student within two business days. The RS contacts the student to welcome them to Careers Australia, introduce themselves and establish a relationship in order to influence them to attend classes and ultimately, graduate.

The Retention Specialist is a student’s biggest fan, their loudest cheer squad, the person who will help students when they need it and be there with the student right through their training. RS’s are ‘someone on your side’, someone who really understands how the students are feeling, someone to cheer on their successes and to offer encouragement through their challenges.

There is a clear improvement in commencement rates across the various courses when students have been assigned a RS and the on-boarding and retention process has been followed. We have received positive feedback from campuses and students. Recently we have also been asking students various survey questions and we’re pleased to report that over 95% of students would recommend that people study with Careers Australia.

Positive Feedback

Deborah Viera (C255548), Diploma Counselling and Community Services, Parramatta

“Deborah mentioned she was very impressed with the on-boarding team, the service we provide and how we build rapport with students – She also explained that what we do is very unique and it has helped her to feel more supported in her course.”

Robert Semmens (206677), Diploma Counselling and Community Services, Hindmarsh

“Student gave absolutely glowing feedback about his experience with us. Especially interesting as he had previously been studying with TAFE and was very dissatisfied with his experience there.

Robert said his experience at Careers Australia has been outstanding in every way possible. He has been blown away by the support he has received right from the time he enrolled and has loved every moment of his course. He said the campus have provided a ‘safe haven’ for him and a ‘second home’ after his mum died shortly before he started the course and his father passing away last month. He was especially complimentary of his educator John Panagaris who even accompanied him to his dad’s funeral and has been an incredible source of support and encouragement for him this year. His parting words were ‘I really feel honoured and privileged to be part of Careers Australia’.

Careers Australia provides comprehensive support to our students to ensure they have the best possible chance of gaining a qualification and successful career outcomes.

ABOUT CAREERS AUSTRALIA

Established in 2006, Careers Australia has rapidly grown to become one of the leading private providers of quality Vocational Education and Training in Australia.

To date, we have graduated over 14,000 students across 16 campuses and online delivery throughout Australia.

Our 16 campuses are accessibly located across five states in Queensland, New South Wales, Victoria, South Australia and Western Australia.

Careers Australia are meeting the needs and changing landscape of education by delivering training through a combination of delivery methods including on and off-the-job, in campus, online and a flexible blended delivery of these methods.

We bring to the table award winning quality education and professional teaching staff with current industry experience. We boast strong industry connections, academic support in a simulated learning environment and tangible pathways into employment or further study based on articulation agreements with a number of major Australian universities.

We have over 200 qualifications on scope including apprenticeships, traineeships, certificates and diplomas which create thousands of pathways into employment and further education.

We invest in the quality of our education and all of these qualifications are nationally recognised.

We deliver courses and training programs which service a broad cross-section of industries including;

- Accounting and Finance
- Aged Care
- Allied Health
- Automotive
- Building and Construction
- Business and Management
- Carpentry
- Civil Construction
- Community Services
- Counselling and Community Services Work
- Early Childhood Education and Care
- Electrical
- Engineering
- Health Services
- Home and Community Care
- Hospitality and Retail
- Nursing
- Workplace Health and Safety

We bring to the table award winning quality education and professional teaching staff with current industry experience.

OUR FOOTPRINT

THE FASTEST WAY TO A BETTER JOB

CABOOLTURE CAMPUS

NEWCASTLE CAMPUS

Apprentices and staff celebrate National Skills Week

Our courses are aligned to projected employment trends, with our product catering for over 75% of the projected employment growth for the next four years.

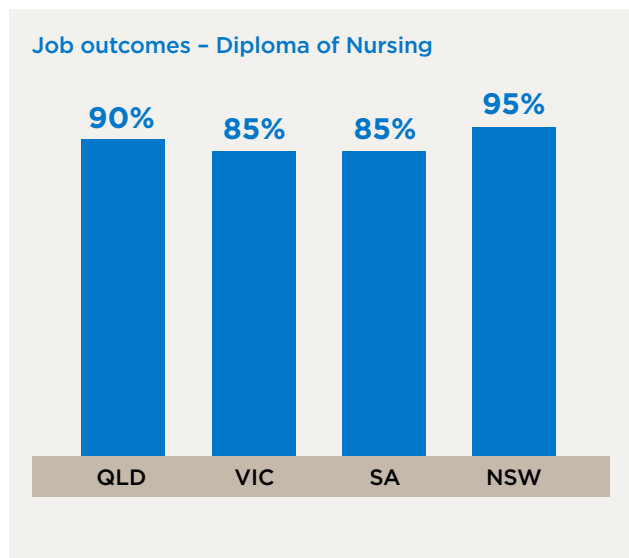

Careers Australia is focused on ensuring our students graduate job ready and are actively seeking employment opportunities. Our current student data reflects that **66%** of Careers Australia students are currently employed, **17%** are currently seeking employment and **17%** are undertaking further study.

1. 'Other' consists of 'Other Services', 'Financial and Insurance Services', 'Wholesale Trade', 'Arts and Recreation Services', 'Rental, Hiring and Real Estate Services', 'Electricity, Gas, Water and Waste Services' and 'Information Media and Telecommunications'. Agriculture, Forestry and Fishing, Mining and Manufacturing are excluded from the chart as they are not projected to grow over the five years to November 2018.

Our flagship program, the Diploma of Nursing, has graduated over 1,500 students since its inception and is highly successful in job outcomes with just under 90% of our students employed or pursuing further education at the time of graduation.

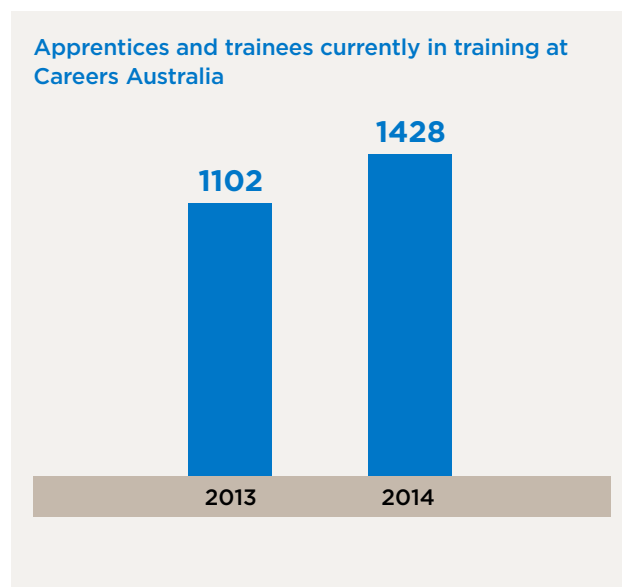

40% of our graduates are working in the Aged Care Sector and 60% are working in the Acute Health Sector across a range of Private and Public Facilities including, but not limited to; QLD Health, Wesley Hospital, Epworth Hospital, John Fawcner Hospital, Royal Adelaide, Flinders Medical Centre, Health Scope, and Opal Group.

Careers Australia also has recognised articulation agreements with a wide range of Australian Universities to ensure our students can progress onto further studies should they wish to pursue a higher level qualification. Currently we have articulations with CQ University, Swinburne University, University of Southern Queensland and Southern Cross University. 38% of Careers Australia students are either pursuing Higher Education or seeking employment after graduation.

100% of our Apprenticeships and Traineeships are employed while undertaking their studies.

Careers Australia has also focused on increasing the number of Apprentices and Trainees undertaking training. In the past 12 months, we have increased our market share by 30%, a significant result considering the industry trend shows a national decrease of 14.2%².

100% of our Apprenticeships and Traineeships are employed while undertaking their studies. We actively ensure that our Apprentices and Trainees continue with their training, should any lose their employment status. We also work with our industry partners and Group Training Organisations to assist any 'out of work' Apprentices and Trainees to successfully regain employment.

2. NCVET Student outcomes 2014 report.

SKILLS FOR THE FUTURE

As part of our commitment to meeting current and future skills shortages, Careers Australia and industry partners work cooperatively and collaboratively with communities and government in creating a coordinated and strategic learning and development approach. This ensures our partners and customers are able to build, attract and retain a skilled workforce to meet their business needs for the future.

We base our benchmarking on the needs of industry and training package requirements and we ensure all the critical aspects and underpinning knowledge and skills are met within the training package.

Careers Australia meets all workplace and legislative requirements. We ensure that conditions, standards, performance steps, and performance measures match the set task through a number of cross-checks that we set out in the planning of the project delivery. Our performance measures are aligned with the Standards for Continuing Registration (SNR) and Australian benchmarks to ensure that all our students receive appropriate information, instruction, training and supervision.

Rather than focussing exclusively on training, Careers Australia works with the client, industry, local communities and governments to:

- maximise utilisation of skills in the workplace to increase productivity;
- maximise workforce participation through the provision of training services; and,
- promote efficiency and mobility in the workforce by combining training with workforce operations.

Careers Australia has developed key, strategic alliances with a range of state-based and national industry bodies to ensure that our training programs and delivery strategies continue to meet not only the individual clients' needs but also the current and emerging skills needs and expectations of industry. These alliances ensure that training outcomes delivered by Careers Australia translate to employment outcomes.

Key bodies that Careers Australia consult with on emerging training needs and unmet gaps in the market include but are not limited to:

- Skills Queensland
- Construction Skills Queensland
- Electrical Contractors Association
- Manufacturing Skills Queensland
- Energy Skills Queensland
- Health and Community Services Workforce Council
- Queensland Resources Council
- National Retail Association
- Australian Council for Private Education and Training
- All Trades Queensland
- Victorian Employer's Chamber of Commerce and Industry

Industry feedback on the new and innovative programs we are delivering has been strong and positive and reinforces our passion for what we do.

Careers Australia has successfully delivered a number of pre-employment and pre-apprenticeship programs throughout Australia, as well as certificates and diplomas in a broad cross section of areas. Many of these programs have been facilitated through both Australian and State Government initiatives, as well as through partnerships with the private sector. All of our programs are developed in consultation with industry to deliver employability outcomes to job seekers and meet employers' needs within the market place.

Careers Australia has partnered with government and business to deliver programs such as the CSQ Internship program. A first-of-its-kind training program, developed to tackle the downturn in apprenticeships in Queensland, with more than 100 future apprentices across Brisbane, the Gold Coast, Toowoomba, and Townsville starting fully-funded construction internships in January and February 2014.

Careers Australia developed the 10-week internship program in conjunction with industry to provide participants with experience across a variety of trades in the construction industry, helping them to choose a specific career while building skills attractive to employers.

[Click on the video below to see the results from the program in 2014.](#)

We have a history of running well-managed projects, such as User Choice, the Productivity Places Program and Better Skills, Better Care, in which we apply market leading and best practice processes and techniques.

Our focus on Civil Construction has seen a 300% increase in student numbers across Victoria, ACT and Queensland in the past 12 months. With the use of CSQ funding, we have been able to help the industry with Skills Gap Analysis Training (SGAT), Higher Level Skills (HLS) training in Civil Supervision and Civil Construction Management and Workplace Health and Safety. Some of our major clients now include BMD, Fulton Hogan, FKG and Winslow Group.

COMMERCIAL, INDUSTRY LED TRAINING SOLUTIONS

Careers Australia's Workforce Consulting unit is integral to engaging with industry.

This is a key recommendation from the Queensland Skills and Training Taskforce having an industry engaged VET system. The Workforce Consulting unit was established with the clear purpose of providing industry with assistance in their workforce planning and development to provide a skilled workforce to effectively service existing, emerging and future requirements.

We provide training solutions and services to over 2,500 organisations ranging from small owner operated businesses, through to national organisations such as Mantra, Thies and multinationals like Rio Tinto. As such our project and client management skills are a priority in setting and meeting deadlines and delivering consistently high quality outcomes. The ability to maintain long term relationships with our customers is testament to the consistently high levels of services delivered.

As part of the State Government's Industry Partnerships Strategy, Rail Skills Australasia will share in part of the Department of Education, Training and Employment's \$3.2M program funding commitment, to help meet the needs of the rail industry. As preferred training provider to RSA, Careers Australia will take a leading role in delivering tailored training solutions, fast-tracking the industry's workforce capability.

Careers Australia achieved a significant milestone when it was selected as Thies's national apprenticeship training provider. The contract will deliver training for 120 mining apprentices in the diesel fitting, electrical, auto electrical and fabrication trades.

We have been working with business since 2006 to identify and deliver workforce training and development solutions.

We are currently working in over 30 industries and have extensive experience across white, blue and pink collar industries. We work with staff from back of house, to the front line through to the board room.

Careers Australia is proud to announce another major national partnership. The deal will deliver a customised nationally accredited program for the Automotive Brands Group (and their retail brand Autobarn), one of the major players in the Australian automotive aftermarket sector. Careers Australia won the deal based on its ability to deliver a holistic training solution that manages administration, sourcing funding, developing customised materials, course delivery and regular progress reports for franchise managers and head office.

Careers Australia has secured a partnership to deliver staff development and training nationally for one of Australia's leading accommodation providers, Mantra Group. Tailored materials and systems will ensure a consistent training experience nationwide, including educators and visit schedules.

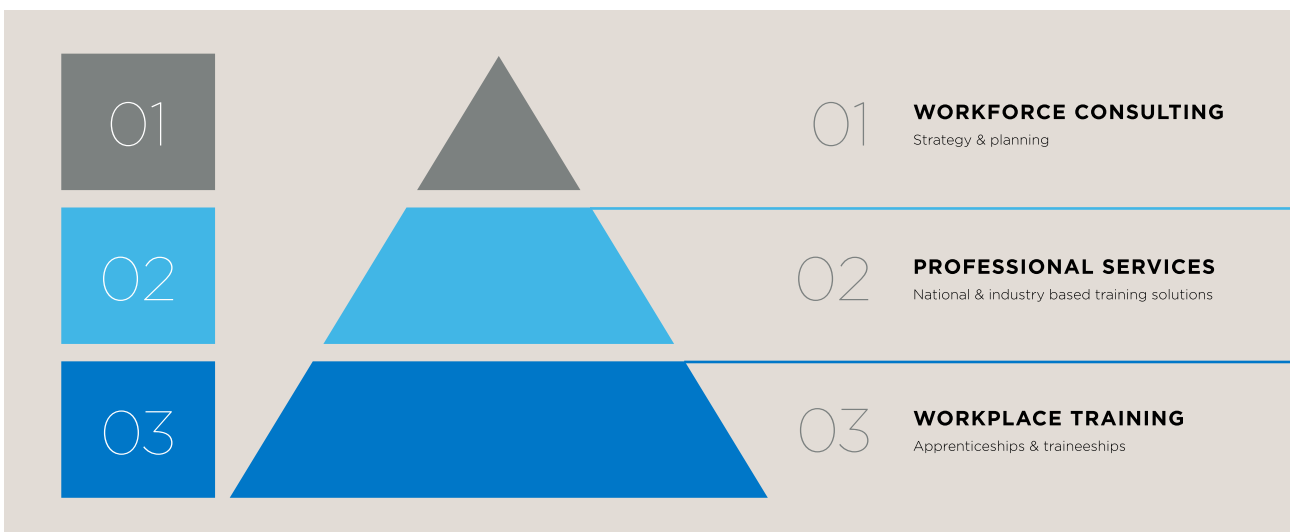

Our in-depth knowledge of best practice across multiple industries and disciplines puts us in a unique position to tailor an innovative, high quality and cost effective solution that is directly linked to achieving business outcomes.

We provide solutions at any level of the organisation, whether it be strategy and planning, a national workforce development program rollout, apprenticeship or traineeship management or one-off training.

Whilst we already offer an extensive scope of training products and programs, we also understand that the needs of businesses are unique. We work directly with industry to develop an outcomes focussed solution that meets our rigorous quality standards.

A training needs analysis is carried out to identify the best fit for employees within the organisation. Gap analysis provides a framework for a customised training program to be offered with a structured Recognition of Prior Learning process. This allows for skills assessment to occur for existing workers to be formally recognised reducing the potential and the perceived difficulty of workers to gain a qualification. Training plans are designed for the employees tailored to meet the needs of individuals. This demonstrates a genuine client focussed training that provides the flexibility for delivery in accordance with the employer and employee.

Our Workforce Training and Development brochure (*Appendix II*) outlines our capabilities, track record and our approach to developing skilled people and effective workplaces.

EXCELLENCE, INNOVATION AND CONTINUOUS IMPROVEMENT

Careers Australia is focused on innovation

through the continuous improvement of our products and services to deliver effective and efficient training. The programs we offer are tailored to meet industry needs and skills requirements to help strengthen the workforce. Our facilities are fitted out with the latest state of the art teaching equipment, including clinical laboratories, library and e-learning resources, full campus Wi-Fi and computer laboratories. These facilities provide hands-on skills training and will cater for the growing number of students seeking education and employment opportunities.

Careers Australia takes quality and compliance as a matter of priority. We have an established Quality Unit that is independent of the delivery and operational teams. The General Manager, Quality and Risk, reports directly to the CEO which enables independent and rigorous internal audits to be conducted and reported directly to the CEO on the performance of the organisation.

Careers Australia has a Quality Management Framework that forms the basis for all quality improvement processes to implement the formal structure of a quality management system.

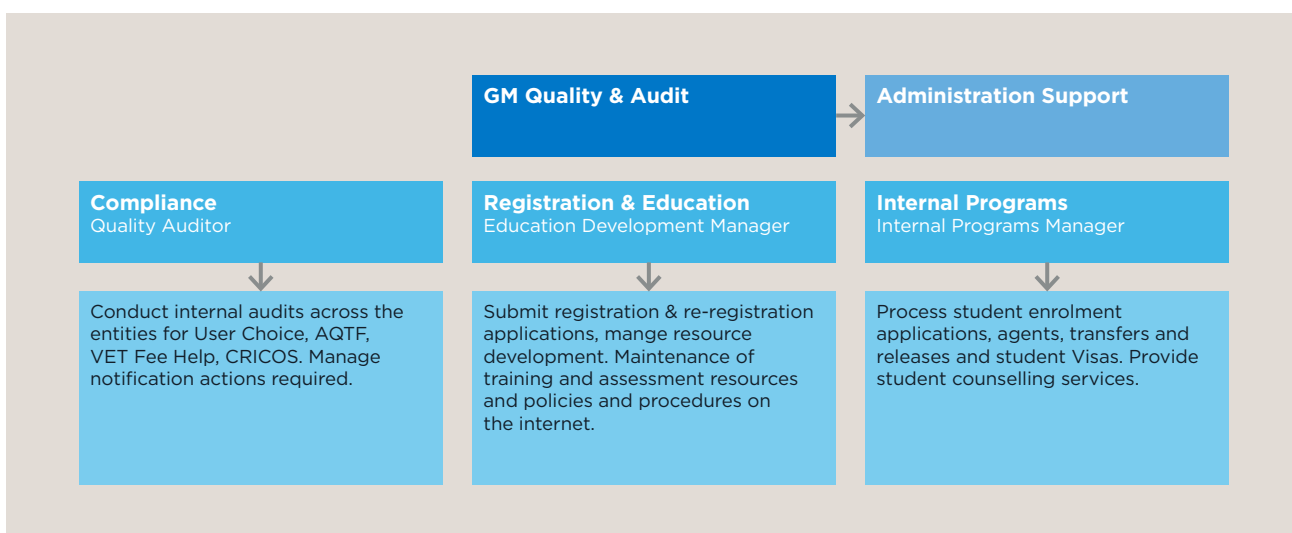

Our Quality Systems ensure Careers Australia meets its obligations under the SNR and is consistent with its scope of registration and scale of operations. Careers Australia is committed to excellence and quality of all our programs. Through this commitment, Careers Australia delivers training programs that meet and exceed the expectations of our students, our industry partners and our regulatory

partners. Quality means more to Careers Australia than just having documented policies and procedures on our fully customised intranet. While Careers Australia has developed a comprehensive range of procedures and operational standards to follow, our commitment to quality is integrated with individuals and work teams taking responsibility for their own quality assurance and improvement processes.

The Quality Unit is also responsible for conducting internal audits for the organisation. The internal audits assess the organisation's compliance with legislative provisions, SNR, contractual obligations, VET Fee-Help, International delivery (ESOS) and apprenticeship and traineeship delivery. The internal audit is conducted objectively to ensure each business area complies with organisational processes and systems have been implemented to ensure compliance.

The quality management system designed for Careers Australia is a strategic approach aimed at embedding awareness of quality in all areas of our organisational processes. The guiding principle of our system is that it is possible to improve quality by practising continual improvement which is an ongoing effort to improve products, services and processes.

An Approach-Deployment-Results-Improvement [ADRI] Cycle is deliberately embedded into the Careers Australia organisational way that means our business processes are continually being improved. It focuses on the quality of both inputs and the transformational process.

All Careers Australia processes, learning resources and assessment tools are submitted to the Quality Unit to review ensuring compliance. An Intranet Dashboard utilised at Careers Australia has an inbuilt version control mechanism maintaining each version of the document on the system to ensure changes can be monitored as part of continuous improvement.

Therefore, Careers Australia has a continuous and auditable record of all versions of learning and support materials to ensure the best quality and experience for our customers and students.

Careers Australia Business Process

These are the steps towards a systematic approach to our core business of training and assessment.

ACTIVITY	TASK
Plan Business Direction and Systems	Based on our business plan CA has a clear strategic direction and management systems are in place to achieve this.
Engage Clients	Products and services are tailored to meet industry needs
Deliver Training	Qualified personnel engage learners in industry focused training
Conduct Assessment	Qualified personnel provide training and assessment services designed to meet industry standards and employability skills
Record keeping	The systems adopted maintains accurate records, are efficient, effective and transparent
Review and improve quality processes	Products and services and organisational performance are systematically reviewed and improved

The business process identified in each core activity has its own evaluation mechanism inbuilt into the business process. Surveys and internal audit mechanisms are built into each of the functions.

In addition to surveys, Careers Australia also uses the results of the surveys administered for the Quality Indicators. These results are collated by the Quality Unit and are sent to the relevant business units for subsequent investigation and follow-up.

Careers Australia has also made a significant investment to create its individualised student management system, CASIS (Careers Australia Student Information System). It has designed a fully customised system that is compliant for VET Fee-Help, multiple state funding contracts, SNR, and ESOS.

This project was initiated in March 2012, and has been designed to improve business efficiencies and create competitive advantage through:

- Replacing VETTRAK with an improved Student Management System (SMS)
- Implementing a student/employee portal and SMS Integration
- Integrating SMS information with a Learning Management System (LMS)
- In-classroom access to student information
- Automated update of qualification/units of competency directly from training.gov.au
- Delivery resources be readily available for printing for all classes
- Students can enrol on-line
- Trainers able to access student information whilst in the classroom
- Managers able to obtain enhanced performance reporting, allowing for more informed business decisions

CASIS will support the imminent introduction of a national Unique Student Identifier across the whole VET system.

Careers Australia has consistently demonstrated our ability to meet compliance obligations based on our impeccable record with external audits. These audits are an affirmation that Careers Australia is achieving quality training and assessment outcomes. This information is published to assist apprentices, trainees and their employers to make informed decisions regarding their selection of a pre-qualified supplier for the delivery of training and assessment services.

VET IN SCHOOLS

The Careers Australia VET in Schools curriculum is developed specifically for secondary school students and delivered by qualified educators with industry experience.

Available to students in years 10, 11 and 12, our courses are flexible and responsive to student and school needs. Training is delivered either at school or at nearby campuses or training facilities. Work placement or experience is also offered with some courses.

Our VET in Schools program (*Appendix III*) is suitable for students with a range of academic capabilities. High achieving students have the opportunity to fast track their pathway to university qualification or gain key skills that will secure entry level positions that will complement further studies.

It also provides disengaged students with the opportunity to gain an insight into possible career and study pathways in a more practical learning environment.

With nearly one in every five students dropping out of university in their first year of study, our University Preparation and Readiness Program (*Appendix IV*) has been designed to assist students to develop realistic expectations of university and the study skills required to succeed in an adult learning environment.

Our UPREP program allows students to undertake an Accredited Australian Diploma program in their final years of secondary

school that provides practical business skills and theoretical knowledge of business and management practices. The course includes university readiness workshops that cover topics such as independent learning, where to find support at university, guidance for writing a variety of assessments, database searching and referencing.

Studying via UPREP could be the first step on the pathway to university success or career ambitions. By developing skills and knowledge in an adult learning environment, students gain both confidence and qualifications to prepare them for a bright future.

Currently we work with the following high schools;		
All Hallows	Cleveland District State High School	Palm Beach-Currumbin State High School
All Saints Anglican School (Merrimac)	Earnshaw State College	Prince of Peace Lutheran College
Anglican Church Grammar School	Everton Park State High School	Sandgate District State High School
Aquinas College	Forest Lake State High	Somerset College (Mudgeeraba)
Arethusa College	Helensvale State High School	Somerville House
Deception Bay	Ingham State High School	Southport State High School
Australian Industry Trade College	Ipswich Girls' Grammar School	St Aidan's Anglican Girls School (Corinda)

SUPPORT SERVICES AND JOB READINESS

We have a Student Support Services department solely focused on our students' needs. With a clear focus on achieving goals and support to take that next step into employment or further study, we have a strong team of professionals including counselling and career guidance experts and qualified teaching specialists.

Careers Australia is committed to providing the resources and mentoring programs for the effective implementation of student participation.

We recognise that one size does not fit all and that to successfully engage with all our students, locally responsive solutions are needed to address any specific local issues. We understand that there is a vital need for extra support for transitioning from school or unemployment to training and therefore into employment.

The support offered focuses on engagement and academic support right through to career guidance and employment services.

Under the academic banner we offer support in:

- Assignment writing
- Study strategies
- Test preparedness
- Presentation skills
- Time management and organisation

This support is offered through:

- One-on-one sessions
- In-class lessons
- Specialised tutorials or workshops
- Study groups

Our students have access to the state of the art online learning management system, Blackboard Learn. Blackboard Learn is the world's leading online learning management system, which brings our students a new standard in interactive and engaging digital education. The online learning system allows our students to access their learning anytime and anywhere.

Our employability skills specialists also provide coaching for students to help them fully understand and actively seek career outcomes. This is offered to all students through our Job Readiness Program (JRP). The Careers Australia Job Readiness Program (*Appendix I*) is focused on giving our existing students and graduates access to career related training activities and events that are designed to engage with Industry and provide networking and employment opportunities.

The JRP focuses on 5 key steps to graduate success in the workplace.

1. Career planning and development
2. Developing job seeking resources - resume and cover letter writing; addressing selection criteria
3. Tips and hints for job seeking
4. Job interview preparation
5. Successful workplace behaviour

The Job Readiness Program, combined with our sector leading retention strategy, gets our students ready for a job and on the path to a successful career.

Careers Australia also provides our students and alumni access to Industry and SME's to provide employment and networking opportunities through our national Career Pathways events calendar. This gives our students a regular platform to engage with industry and potential employers.

BRAND AND MARKETING

Since inception, Careers Australia has consolidated its market position and built a strong and trusted brand through close relationships with industry and the provision of quality training services.

All marketing material goes through an internal approval and auditing processes to ensure it is compliant before publication.

Our recently developed national course guide (*Appendix IV*), provides a comprehensive list of courses and information accessible to all potential students.

Our website **www.careersaustralia.edu** displays the most up to date information on our courses, including information regarding our course fees.

OUR STAFF

At Careers Australia, we pride ourselves on our strong commitment to a safe, well paid and rewarding workplace. Careers Australia has a strong relationship with its employees, which is backed by our record of no industrial disputes. An Enterprise Agreement is in place and covers around 85% of our workforce and has recently been voted up overwhelmingly by our employees for a further 3 year period. The Enterprise Agreement provides generous pay increases each year for our staff along with very competitive salaries.

As well, it provides Careers Australia with the ability to continue to grow its business and flex its offering to meet the needs of its students and the industry sectors in which it operates.

At Careers Australia, we maintain a healthy organisation through the clear and constant communication of the goals and strategic direction of the business. To ensure that we attract and select the right person for the job and for the company we make sure the recruitment and selection process accurately matches skills to jobs, as well as people to the organisation.

Strategies to ensure that we have the right people, in the right place, with the right capabilities at the right time include:

- undertaking strategic and operational planning processes to identify future business directions and workforce needs. This includes identifying the economic drivers that will determine the training that is needed and the emerging demographics that will be reflected in our student population
- analysing and understanding the make-up of Careers Australia's current workforce through the use of demographic staff profiling, SWOT analysis, environmental scanning and skills matrices
- determining the necessary skills, capabilities and competencies required to achieve strategic and operational goals in the future
- accurate and consistent (organisation-wide) description of job roles and skill sets
- efficient and effective recruitment processes, selection techniques and appointment processes.

Our organisational culture has high expectations of our staff and requires them to have commitment and passion in their work. Selection of appropriate course delivery staff includes reflection of these core values in their personality and work related skills. This transposes over to the connection with our students.

Our trainers are recruited from industry, with many of our senior staff highly experienced in the Australian VET sector.

How our wages compare to the award wage

Relevant Category of Award	Relevant Level of Award Category	Award Hourly Rate	Applicable Level of Careers Australia EBA	Hourly Rate for Trainers/Educators as per Careers Australia EBA	Amount per hour paid above Award - Careers Australia EBA Rates

During that time, he completing his Enrolled Nursing and finally his teaching certificate so he could teach and pass on his passion and knowledge for Aged Care.</p> <p>With 10 years’ experience teaching in Melbourne, China and the Philippines, Shaun started working at Careers Australia in 2012.</p>

CONCLUSION

Careers Australia would welcome the opportunity for members of the Senate Inquiry to conduct site visits at our facilities.

We would also like to extend the invitation to hold any possible hearings at one of our campuses across the nation.

CAREERS AUSTRALIA

job readiness

PROGRAM

At Careers Australia, we are committed to ensuring all our students graduate job ready with industry leading skills.

We've also recognised that the skills needed to succeed in a job role are more than just technical skills. Graduates need practical workplace skills that provide them with the confidence to succeed.

The **Careers Australia Job Readiness Program** focuses on 5 key steps to graduate success in the workplace.

1. Career planning and development
2. Developing job seeking resources – resume and cover letter writing; addressing selection criteria
3. Tips and hints for job seeking
4. Job interview preparation
5. Successful workplace behaviour

The **Careers Australia Job Readiness Program** gives our graduates the ability to:

- Sell their skills and qualifications with a customised resume and polished interview techniques
- Confidently apply their excellent business communication and English language skills
- Show how their strengths translate into real business results
- Network and socialise with other professionals in a business context
- Apply fundamental business skills such as problem solving and time management
- Understand, adapt and contribute to the culture of a workplace
- Contribute and thrive in a team environment.

**WORKFORCE TRAINING
& DEVELOPMENT**

solutions

why CAREERS AUSTRALIA

One of the biggest challenges for business is to do more with less. A slow global economy has placed enormous pressure on management to slash costs and maximise productivity.

Workforce training and development is the key to maximising business outcomes in a tough market and yet it is often the first to go. The trick is to know where and how to invest in order to maximise return on investment.

Industry is looking for flexibility, not a one size fits all response. That's where Careers Australia stands head and shoulders above the rest and why we are the **industry preferred choice** when it comes to developing skilled people and an effective workplace.

OUR *capability*

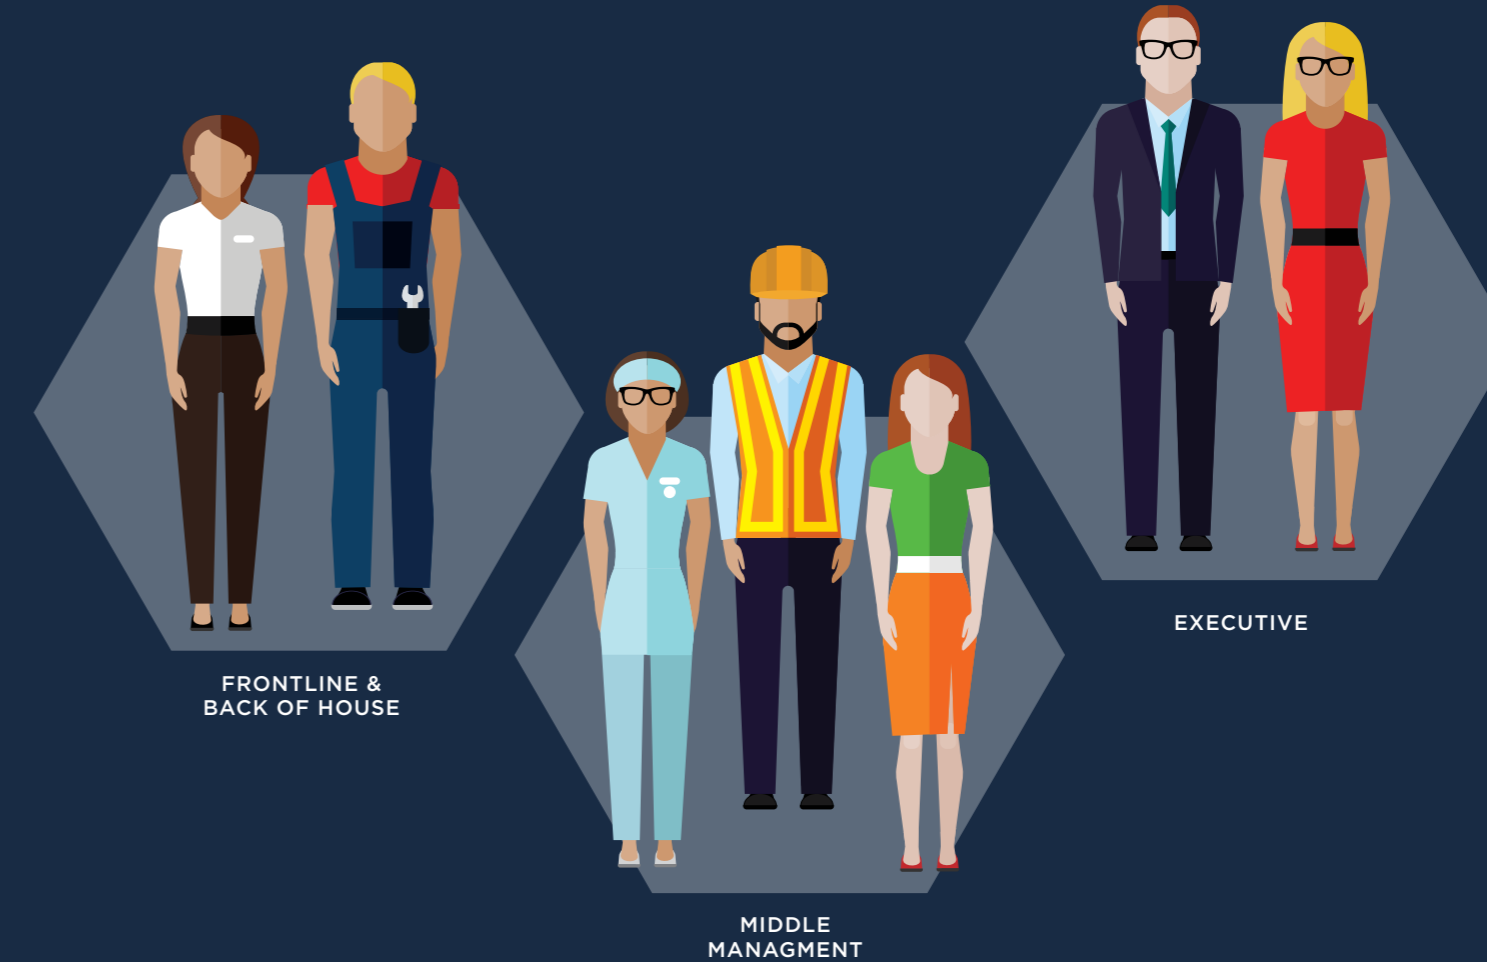

Careers Australia has been working with business since 2006 to identify and deliver workforce training and development solutions.

We are currently working in over 30 industries and have extensive experience across white, blue and pink collar industries. We work with staff from back of house, to the front line through to the board room.

Our in-depth knowledge of best practice across multiple industries and disciplines puts us in a unique position to tailor an innovative, high quality and cost effective solution that is directly linked to achieving business outcomes.

WORKING IN 30 INDUSTRIES

ACROSS OPERATIONS, SERVICE & MANAGEMENT

-  BUSINESS & MANAGEMENT
-  HEALTH & COMMUNITY
-  HOSPITALITY
-  RETAIL
-  AUTOMOTIVE & ENGINEERING
-  ENERGY & RESOURCES
-  CONSTRUCTION
-  TRANSPORT & LOGISTICS

THE CAREERS AUSTRALIA *difference*

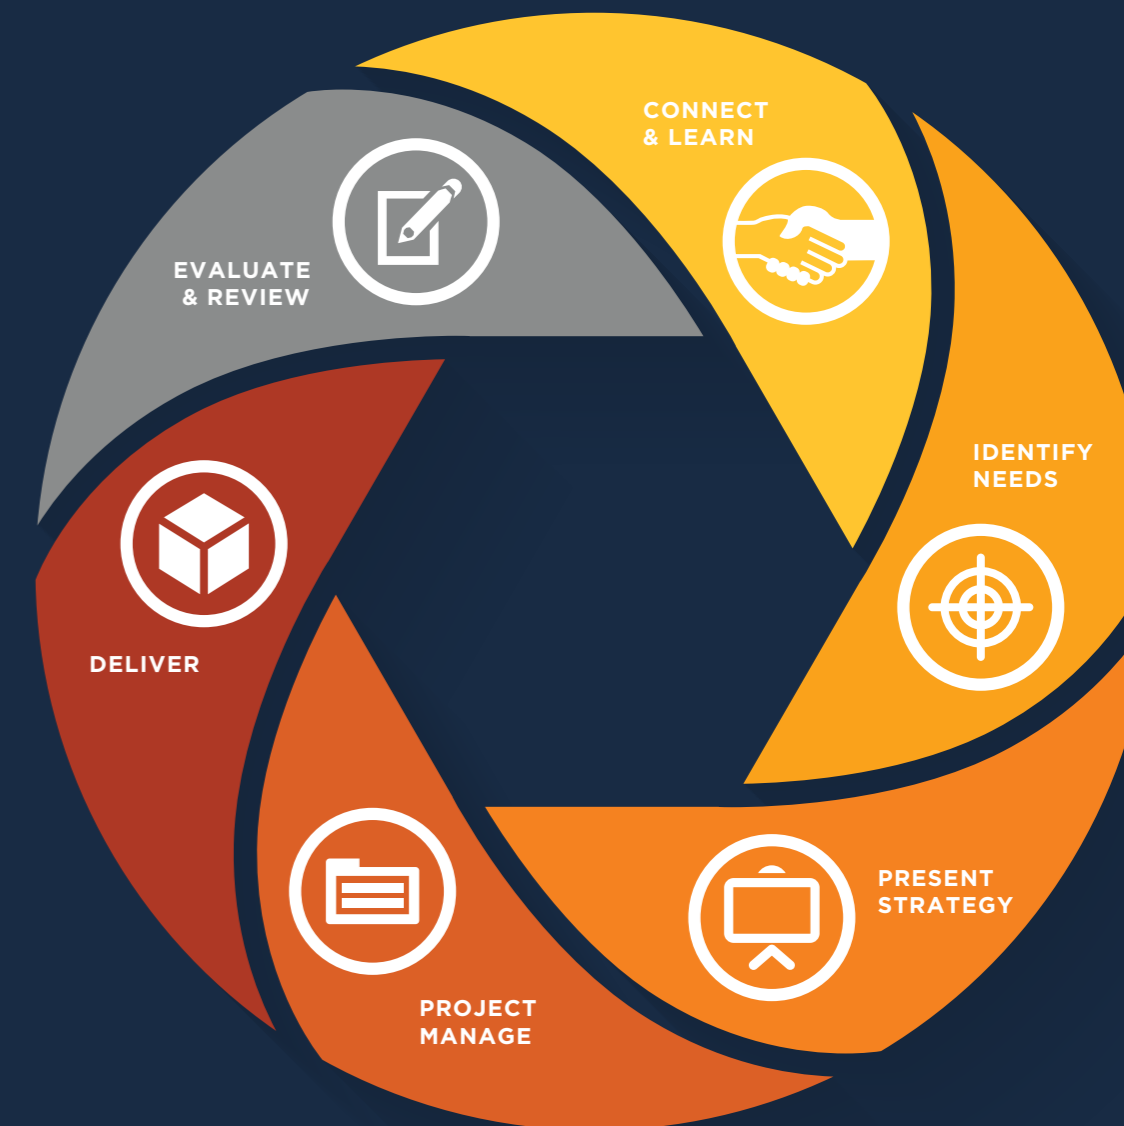

OUR *approach*

The cornerstone of a productive workforce is having the right people with the right skills in the right place at the right time.

We recognise that every client organisation is different and faces distinct pressures and challenges. As a first step, we connect with and learn about your people and operations before identifying needs and presenting strategy.

We project manage and deliver solutions using specialists who have in depth industry experience. Our team will embed in your operations to maintain a constant watch on the effectiveness of the project, ready to refine at a moments notice to ensure it remains on target to achieve strategic outcomes.

Careers Australia helps to build, attract and retain a skilled workforce by applying industry best practice to review your organisation's capabilities and situation, then present innovative and practical solutions.

EXCELLENCE IN WORKFORCE *training*

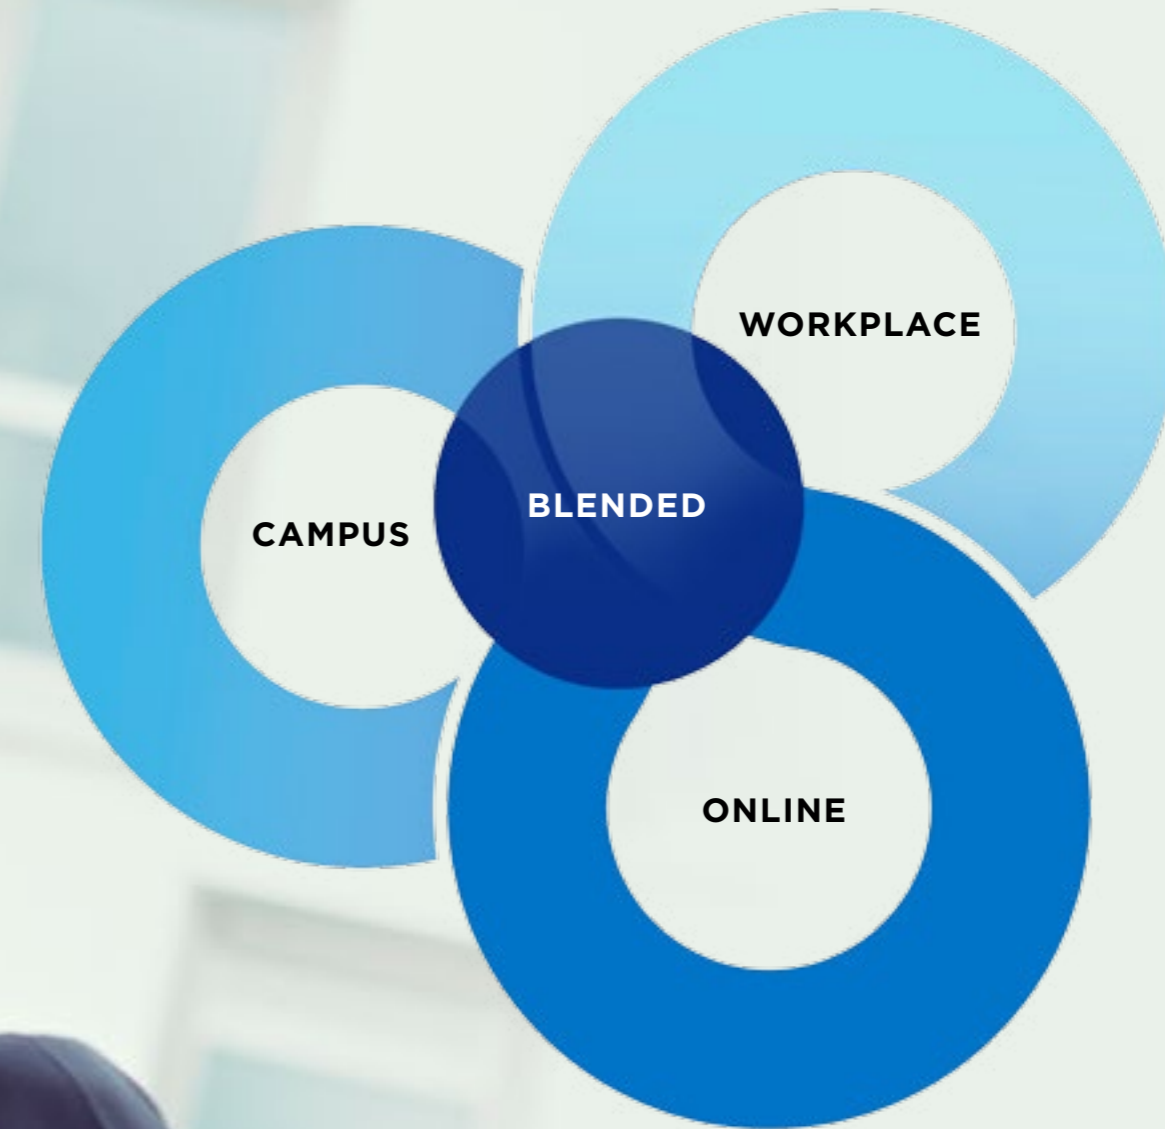

Careers Australia is at the forefront of workforce education and training. We have made a significant investment to take the lead in the online learning environment.

Our students can access virtual classrooms, web conferencing and 24/7 trainer support. This allows high quality training to be delivered any where, any time.

Apprenticeship training, traditionally delivered through lengthy off-site training blocks is now a thing of the past. Your staff will learn core skills of their trade or profession through a mix of traditional and innovative education practices at a time and place that suits them and their employer.

Our Industry Blended Learning Model gives employers the flexibility and accessibility to choose the best training solution.

- Increased flexibility
- Significantly reduced block training time
- Workplace training and assessment, auditing and reporting done for you
- More engaged apprentices
- Potential to accelerate apprenticeships
- More immediate application of skills and knowledge in the workplace
- Training when it's convenient for the worker and employer
- Employer engaged in the training process

FLEXIBLE DELIVERY MODEL

Our staff are industry experienced and expertly identify the best training and delivery methods available for your company – whether it be on-campus in one of our 16 state of the art facilities, in the workplace, online or a blend of these techniques.

A GLOBAL CAPABILITY, DELIVERED

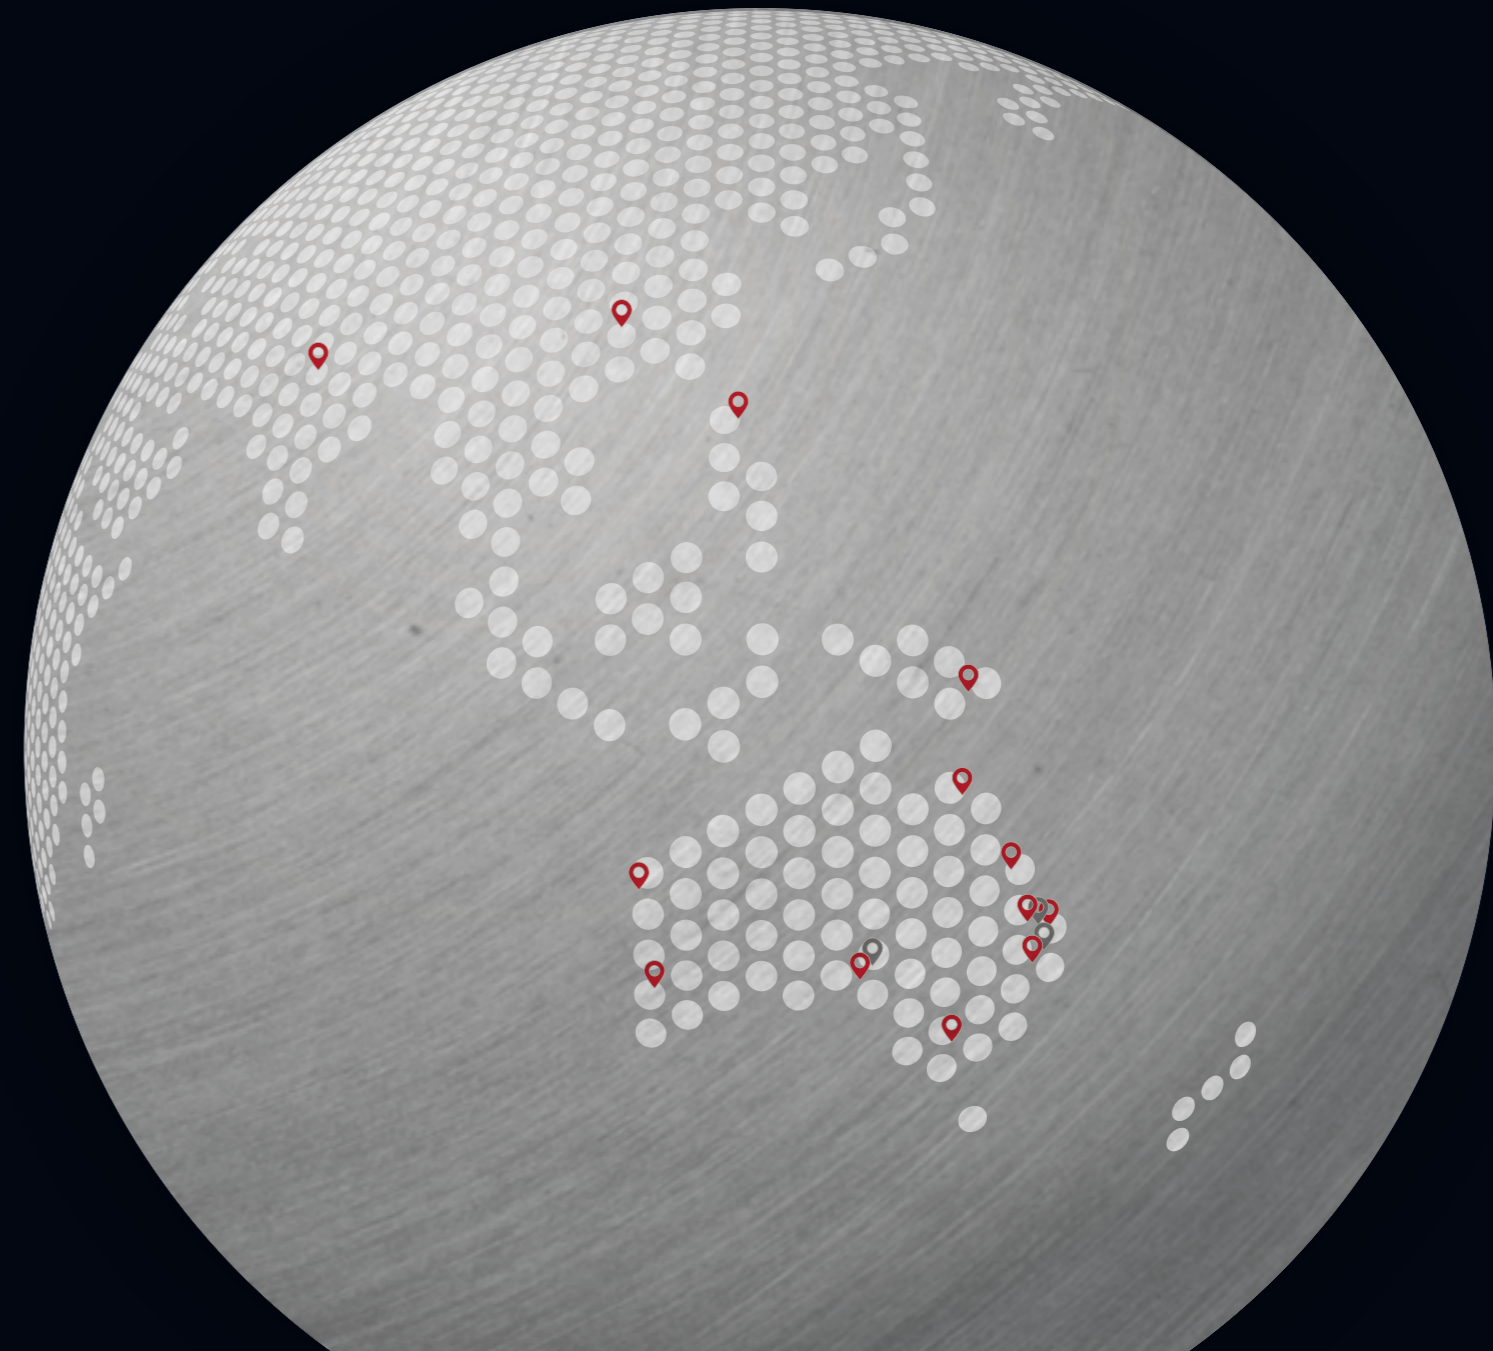

locally

Our professional services division has extensive international and national capability that is delivered with a local focus.

This provides a national consistency for your workforce solutions that is able to easily accommodate local needs.

We work with many companies that operate across State lines and in multiple industry sectors. This presents a complicated mix of workplace legislation and operational requirements. Our established and strong working relationships with governments and industry bodies enables Careers Australia to maximise funding opportunities for our clients.

Our Apprenticeships and Traineeships division provides nationally recognised training developed for the industry by the industry. It can also be tailored to your company's specific needs using your work sites as practical examples and training staff in your and your suppliers' products.

A HOLISTIC

approach

When it comes to developing skilled people and effective workplaces, Careers Australia has the expertise to provide a holistic solution from strategy development through to implementation or a tailored solution based on your needs.

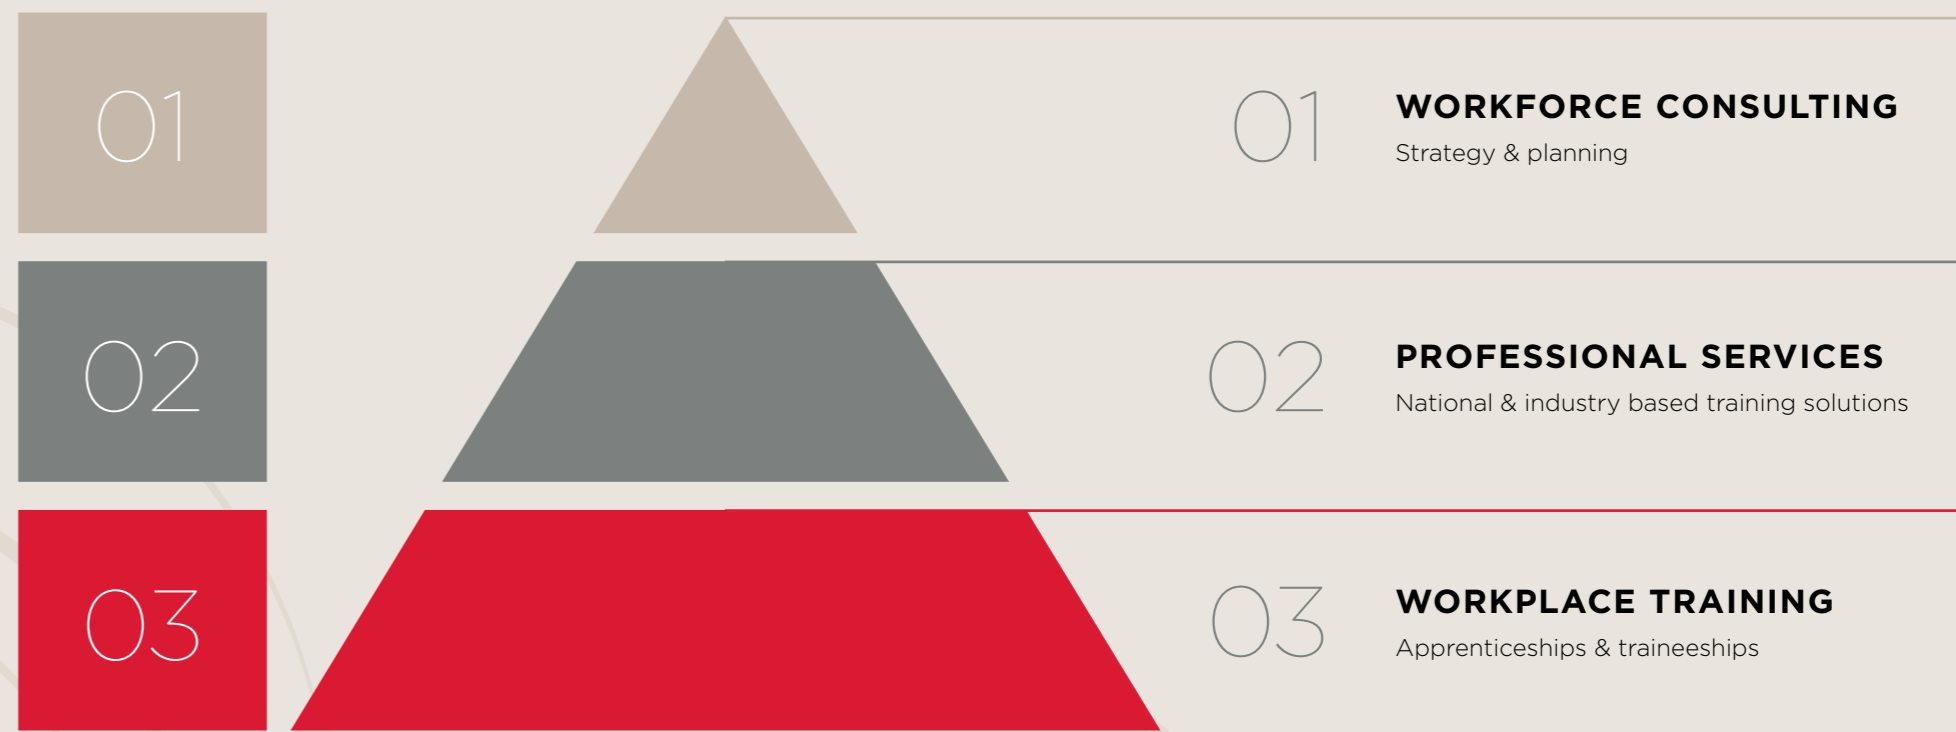

Our workforce consultants have first hand experience delivering transformational learning and development value to domestic and international clients. They focus on strategy, operational performance, organisational effectiveness and operational readiness and can facilitate a complete overhaul of corporate culture and organisational behaviour if required.

Our capabilities extend to:

- Designing workforce planning and development strategies;
- Designing, building and implementing Learning and Development Frameworks;
- Conducting reviews of existing Training Management Systems;
- Developing processes and procedures from “Enrolment of Participant” to “Return on Investment” strategies;
- Assisting in the development and maintenance of educational products and services through a quality review and business improvement process;
- Creating learning pathways; and
- Executive leadership development and succession planning.

TOP TO BOTTOM SOLUTIONS

We provide solutions at any level of the organisation, whether it be strategy and planning, a national workforce development program rollout, apprenticeship or traineeship management or one-off training.

CUSTOM TRAINING

solutions

Careers Australia has over 200 nationally accredited courses on scope. We understand that business needs are constantly changing and evolving.

We offer a comprehensive range of accredited courses to suit a broad range of job roles, functions and industry sectors delivered as short courses, Certificate I to IV, Diploma and skills gap assessment.

If none of our existing products are quite right for your business, then we can work with you directly to design and deliver a tailored training solution that specifically targets your needs; whether it's a simple induction or a single and specific skill or skill set, through to an entire qualification built around your business.

**CAREERS
AUSTRALIA**

careersaustralia.edu.au

welcome

Careers Australia offers a broad range of nationally recognised and industry relevant courses to secondary school students through the Vocational Education and Training in Schools (VETiS) program.

We are committed to providing first class opportunities for students through job pathways, university articulation or further vocational training.

For a young person, choosing the right career pathway is one of the most important and daunting decisions they will make. As Australia's largest private training college, Careers Australia offers a broad variety of flexible courses for students to choose from. And with a well established hands-on approach, our experienced team will support you and your students every step of the way.

We work closely with industry to ensure that our courses meet the evolving and emerging skills desired. Our graduates are job ready with skills that are in-demand, providing them with the edge they need to enter the workforce and secure their dream career.

Patrick McKendry
Managing Director/CEO

who ARE WE?

Established in 2006, Careers Australia has grown to become Australia's leading private provider of vocational education and training.

With over 14,000 students and 16 campuses, our courses are recognised and highly respected nationwide.

We have an extensive offering of accredited short courses, apprenticeships, traineeships, certificates and diplomas that create solid pathways into employment and further education across a wide range of industries.

Our passionate group of industry-current educators deliver flexible, practical and fast outcomes.

Careers Australia has a number of industry partnerships, as well as articulation agreements with universities nationwide, to ensure our students have the best outcomes well after they graduate.

QUICK FACTS

- Careers Australia has campus locations in every major Australian city.
- Careers Australia has over 200 nationally accredited and internationally recognised courses on scope.
- 75% of our students consistently give us a satisfaction rating of 7/10 or above.
- Our industry partners are some of Australia's most well known and respected corporations.

WHAT IS VET IN *schools?*

VET in Schools refers to Vocational Education and Training (VET) courses undertaken as part of secondary school studies. About one third of Australia's senior secondary students are enrolled in a VET in Schools course.

Participating in a VET in Schools program can:

- provide credit towards the attainment of a Queensland Certificate of Education;
- provide credit towards further study at university;
- support a student's transition from secondary school to employment or further vocational education and training; and
- provide students with the foundation skills needed to acquire a traineeship or apprenticeship.

OUR VETiS *program*

The Careers Australia VET in Schools curriculum is developed specifically for secondary school students and delivered by qualified educators with industry experience.

Available to students in years 10, 11 and 12, our courses are flexible and responsive to student and school needs. Training is delivered either at school or at nearby campuses or training facilities. Work placement or experience is also offered with some courses.

Our VET in Schools program is suitable for students with a range of academic capabilities. High achieving students have the opportunity to fast track their pathway to university qualification or gain key skills that will secure entry level positions that will complement further studies. It also provides disengaged students with the opportunity to gain an insight into possible career and study pathways in a more practical learning environment.

All materials required by the courses are inclusive and provided by Careers Australia including textbooks and safety gear where applicable.

WHY STUDY *with us?*

Nationally recognised and industry respected qualifications

Careers Australia's partnerships with world class industry leaders assist our students to make the connections they need to accelerate their career opportunities. We have also partnered with leading universities to ensure diploma graduates can receive credits for like tertiary qualifications, reducing the time and cost of further study.

With the unemployment rate at its highest in six years, students face a very competitive job market. Careers Australia's nationally recognised and industry respected qualifications put our graduates at the top of the list for employers and universities across the country.

Engaging training for students

Contextualised for the secondary school demographic, our course curriculum is relevant to the student's career interest and allows them to draw comparisons from the materials into real life. Our educators are some of the most knowledgeable and experienced in their field. They have a passion for helping the next generation achieve their education goals and offer a wealth of real world experience.

Flexible, tailored training

Careers Australia acknowledges that schools have multiple delivery schedules and demands on in-school time. Our VET in Schools courses are designed to complement the existing timetable and be completed in the student's 'spare' study sessions or during their allocated VETiS classroom time.

Easy and supportive administration

From enrolment to graduation, Careers Australia handles all administrative and reporting responsibilities including all resulting, compliance audits and end of term validation meetings. Our educators take a leading role in parent/student/teacher interviews, presenting career and further learning pathways, course information and feedback on student progress.

Student support services

We offer holistic student support services. Our dedicated passionate and professional support staff is ready to help students enter the adult learning environment and develop skills to improve their employability such as resume writing and interview preparation. Plus we have career advisors who provide students with personalised advice on further study or vocational training.

Funding and subsidies

Eligible students can access a range of government and industry funding that makes our education amongst the most accessible and affordable in the country. To find out more about the funding available for your course of choice, or payment options please contact Careers Australia on 1300 887 696.

STUDY

*business &
management*

Careers Australia has partnered with leading universities to ensure diploma graduates can receive credits for like tertiary qualifications, reducing the time and cost of further study.

STUDY

business & management

Having a solid understanding of business services offers graduates the opportunity to apply for roles in their industry of choice, work in the family business or start their own.

Successful course completion offers students credit towards future university programs, fast tracking studies. The Diploma of Business can provide between 40 and 80 credit points towards a Bachelor of Business.

Careers Australia also offers double diplomas which provide students with a broad understanding of business and management practices and the opportunity to focus on a preferred study area. The breadth of units studied in a double diploma offers greater cross credit to put towards future tertiary studies with up to 10 units credited and a potential saving of \$13,000¹.

"I have enjoyed the Diploma of Business greatly and it has provided me with the confidence to start my own events management company. I can use the credit earned to reduce the time and cost of my Bachelor of Business."

GRANT PEEL,

VET in Schools student,
Somerset College.

STUDY

health & community

A career in the health and community sector is one of the most personally and professionally rewarding. Each day offers the opportunity to make a positive difference to someone else's life.

STUDY

healthcare

Allied health and aged care are excellent career pathways into the health sector, often sought as the first step towards becoming an enrolled nurse.

A Certificate III in Allied Health or Aged Care offers students the opportunity to secure an entry level role that will complement future learning and career pathways.

With the implementation of the National Disability Insurance Scheme and Australia's ageing population, employment growth is expected to be strong in the health sector.

Our partners include Australia's leading healthcare providers. Students will have the opportunity to undertake practical work experience with some of the industry's biggest employers including the Wesley Hospital, Healthscope, Regis, Ramsey, Anglicare, Blue Care, Catholic Healthcare, Opal and Bupa.

HEALTHCARE COURSES

Certificate III in Allied Health Assistance

Certificate III in Aged Care (Assistant in Nursing)

Further details on these courses can be found on our website at careersaustralia.edu.au/VET-in-schools

"Careers Australia offers a supportive, professional and progressive service to students, staff and industry partners."

CORRIE PLOEG,
Operations Manager
NSW/QLD,
Estia Health

"We've been overwhelmed by the interest in fitness and are excited to now offer three industry ready courses."

ROBERT JURLINA,
National Manager,
VET in Schools,
Careers Australia

STUDY

fitness

Helping others to achieve their personal fitness goals is a rewarding and in demand profession.

For students who are highly active and interested in physical health and wellbeing, studying the principles of exercise science will complement both their career and personal fitness goals.

As more emphasis is being placed on improving society's health, the fitness industry is growing rapidly with an additional 28,800² fitness instructor roles expected by 2017.

By obtaining a fitness qualification during school, students hit the ground running on their fitness career.

FITNESS COURSES

Certificate III in Fitness

Certificate IV in Fitness

Diploma of Fitness

Further details on these courses can be found on our website at careersaustralia.edu.au/VET-in-schools

STUDY EARLY

childhood

EDUCATION & CARE

Early Childhood Education and Care (ECEC) educators play a valued and critical role in the positive development of children.

With more than 50,000² job openings expected over the next five years, there are excellent prospects in the industry for students.

The National Quality Framework requires that to perform certain roles within a centre, educators must be qualified or studying towards a relevant qualification.

A Careers Australia course in ECEC is well respected in the industry and will provide students with work experience and the qualifications they require to start their career.

EARLY CHILDHOOD COURSES

Certificate III in Early Childhood Education & Care (Traineeship)

Further details on these courses can be found on our website at careersaustralia.edu.au/VET-in-schools

“Careers Australia students have the benefit of learning alongside high quality trainers that provide one-on-one support in both the classroom and in an early childhood service.”

SONIA PALMER,
Regional Manager,
Sunkids Childcare Centres

STUDY

trades & technical

By gaining a nationally accredited certificate, students will be able to gain credit towards a trades traineeship or apprenticeship.

Careers Australia offers students flexible and tailored training which can kick-start a career in their chosen industry.

The trades curriculum combines school-based study with practical on-the-job training. Students have the opportunity to complete Trade based Certificate I and II qualifications providing them with the foundation skills required and sought after by industry employers.

STUDY

engineering

Gaining a qualification in engineering opens doors to working in industries all over the world.

Engineers are integral to the growth and sustainability of community, commercial and domestic infrastructure such as manufacturing plants, railways, electricity and communications.

The skills and concepts embedded in our certificate and diploma courses allow students to acquire the base knowledge needed to work in mechanical, industrial and production engineering environments, as well as present students with an insight into the varied engineering fields.

Careers Australia works closely with our industry partners to identify in-demand skills and tailor our course offerings. The skills learned are highly transferable across industries and may lead in to a school based apprenticeship.

ENGINEERING COURSES

Certificate I Engineering (Rail Industry)

Certificate II in Engineering (Pathways)

Certificate II in Engineering (Traineeship)

Certificate III in Engineering- Fabrication or Mechanical (Apprenticeship)

Diploma of Engineering (Technical)

Further details on these courses can be found on our website at careersaustralia.edu.au/VET-in-schools

“Rail Skills Australasia works closely with Careers Australia to ensure that the industry is provided with the skills that are needed, where they are needed, when they are needed.”

PAUL DALY,
Chief Executive Officer,
Rail Skills Australasia

“The Careers Australia electrotechnology students demonstrate a clear understanding of the electrotechnology framework and will be an asset to the industry.”

RICHARD BONATO,
Director, Laser Electrical, AYR

STUDY

electro technology

Electrotechnology impacts on almost all aspects of daily life.

Roles in this industry are responsible for the installation, servicing, repair and maintenance of electrical and electronic equipment for industrial, commercial and domestic purposes.

Given our insatiable appetite for technology and with significant national investment in new infrastructure, demand for electricians is expected to add 58,900³ jobs by 2016.

The concepts learned in the Certificate II in Electrotechnology provide students with the base knowledge to work in a wide range of electrical environments and may lead in to a school based apprenticeship.

ELECTROTECHNOLOGY COURSES

Certificate II Electrotechnology (Career Start)

Certificate III in Refrigeration & Air Conditioning (Apprenticeship)

Certificate III in Electrical (Apprenticeship)

Certificate IV in Systems Electrical (Apprenticeship)

Further details on these courses can be found on our website at careersaustralia.edu.au/VET-in-schools

STUDY

Construction

Building homes or tomorrow's infrastructure is a rewarding career.

Jobs in the construction industry are predominantly outdoor and suit students who want to work with their hands.

After a recent lull, the construction industry is predicted to boom with 83,500⁴ new jobs expected by November 2018. Gaining an entry level qualification for the construction industry during secondary school puts students in the best position to fast track their career in this ever growing industry.

Careers Australia has long term partnerships with some of the largest agencies that facilitate the placement of apprentices for the construction industry. Our courses are specifically designed to prepare students to be site-ready including knowing and understanding work health and safety procedures.

CONSTRUCTION COURSES

Certificate I in General Construction

Certificate III in Carpentry (Apprenticeship)

Further details on these courses can be found on our website at careersaustralia.edu.au/VET-in-schools

"Careers Australia has provided a great training experience for our school based apprentices."

ANDREW PERATS,
Employment & Recruitment Director,
Australian Industry Trade College

“Our students understand the manufacturing environment and are able to quickly adjust to the workplace.”

KINGSLEY WRIGHT,
Careers Australia
Program Manager,
Engineering

STUDY

manufacturing

The Australian manufacturing industry is incredibly diverse and includes businesses involved in activities from processing food to smelting steel.

Students will develop an appreciation of the manufacturing process and what is needed to design, plan, manufacture and market a product from beginning to end at a technical level.

A Careers Australia course in manufacturing is well respected in the industry and will provide students with the qualifications they require to start their career.

MANUFACTURING COURSES

Certificate II in Manufacturing

Certificate III in Manufacturing

Further details on these courses can be found on our website at careersaustralia.edu.au/VET-in-schools

STUDY

automotive services

Keeping up with the rapid changes in automotive technology is essential for students who wish to enter the industry.

As the number of cars owned by Australians grows by more than 400,000 each year, the demand for qualified automotive professionals is increasing.

Careers Australia works closely with our industry partners including First Class Taxis, RACQ, Penrite Oils, Century Batteries, Snap On Diagnostics and major automotive dealerships to ensure our graduates have relevant skills that easily transfer to the workplace.

AUTOMOTIVE COURSES

Certificate II in Automotive Servicing Technology

Certificate II in Service Technology (Traineeship)

Certificate II in Underbody (Traineeship)

Certificate III in Light Vehicle (Apprenticeship)

Certificate III in Heavy Vehicle (Apprenticeship)

Certificate III in Auto Electrical (Apprenticeship)

Certificate III in Underbody (Apprenticeship)

Further details on these courses can be found on our website at careersaustralia.edu.au/VET-in-schools

“Careers Australia understands the need to continually develop our staff’s skills to meet the unique challenges facing business today. The training program is great, but what impressed me the most is the flexibility and the feedback on the student progress.”

DAVID SCHULTZ,
Group Service Manager,
Robina Auto Village

“Their approach to tailoring training to suit the needs of the kitchen operations and apprentices is extremely effective for our organisation.”

ALAN SCHRADER,
General Manager
Pancakes in Paradise

STUDY

hospitality

Gaining a qualification in hospitality will open doors for students to work all over Australia and the world.

Interest in the hospitality industry has exploded over the past 10 years.

The popularity of specialty restaurants and television shows such as Master Chef and My Kitchen Rules is strong evidence of its resurgence.

Demand for qualified hospitality workers over the next five years is expected to be high with between 25,001 and 50,000² new job offerings to be added.

HOSPITALITY COURSES

Certificate II in Hospitality (Kitchen Operations)

Certificate III in Bakery- Bread or Combined (Apprenticeship)

Certificate III in Hospitality (Apprenticeship)

Certificate III in Commercial Cookery (Apprenticeship)

Further details on these courses can be found on our website at careersaustralia.edu.au/VET-in-schools

A VET in schools pathway coordinator will contact you to arrange a meeting to discuss your needs, assist with course selection, funding enquiries and possible timetabling for delivery.

School Leavers

Now more than ever, young people face a highly competitive job market. Careers Australia can provide the edge they need to quickly secure a job.

For the school leaver, we offer an extensive range of accredited short courses, apprenticeships, traineeships, certificates and diplomas. We create thousands of pathways into employment and further study.

Careers Australia is committed to helping our students into the adult learning environment and assisting them to secure the skills they need to improve their employability.

We have also partnered with one of the regions largest employers and recruitment providers, Chandler Macleod. Upon enrolment, students opt-in to become Chandler Macleod candidates and gain access to their job seeker resources.

For more information about our post school courses, see our website careersaustralia.edu.au or call us on 1300 887 696.

who is

CAREERS AUSTRALIA?

Established in 2006, Careers Australia has grown to become Australia's leading private provider of vocational education and training (VET).

Careers Australia has helped 58,000 students open the door to opportunity.

The Careers Australia VET in Schools curriculum is developed specifically for secondary school students and delivered by qualified educators with industry experience. Available to years 11 and 12, our courses are responsive to student needs.

Research confirms that students who undertake VET programs transition more successfully to further study and the workplace. With the youth unemployment rate at an all-time high, our VET in Schools program can provide students with the competitive advantage they need to thrive after school.

The UPREP program is also available for the

- + Diploma of Management
- + Diploma of Project Management
- + Diploma of Marketing
- + Diploma of Human Resources

For more information on the above UPREP programs, or to find out more about Careers Australia's VET in Schools courses, call us on 1300 150 824 or visit careersaustralia.edu.au/vet-in-schools

VET IN SCHOOLS
UPREP *guide*

what is

UPREP?

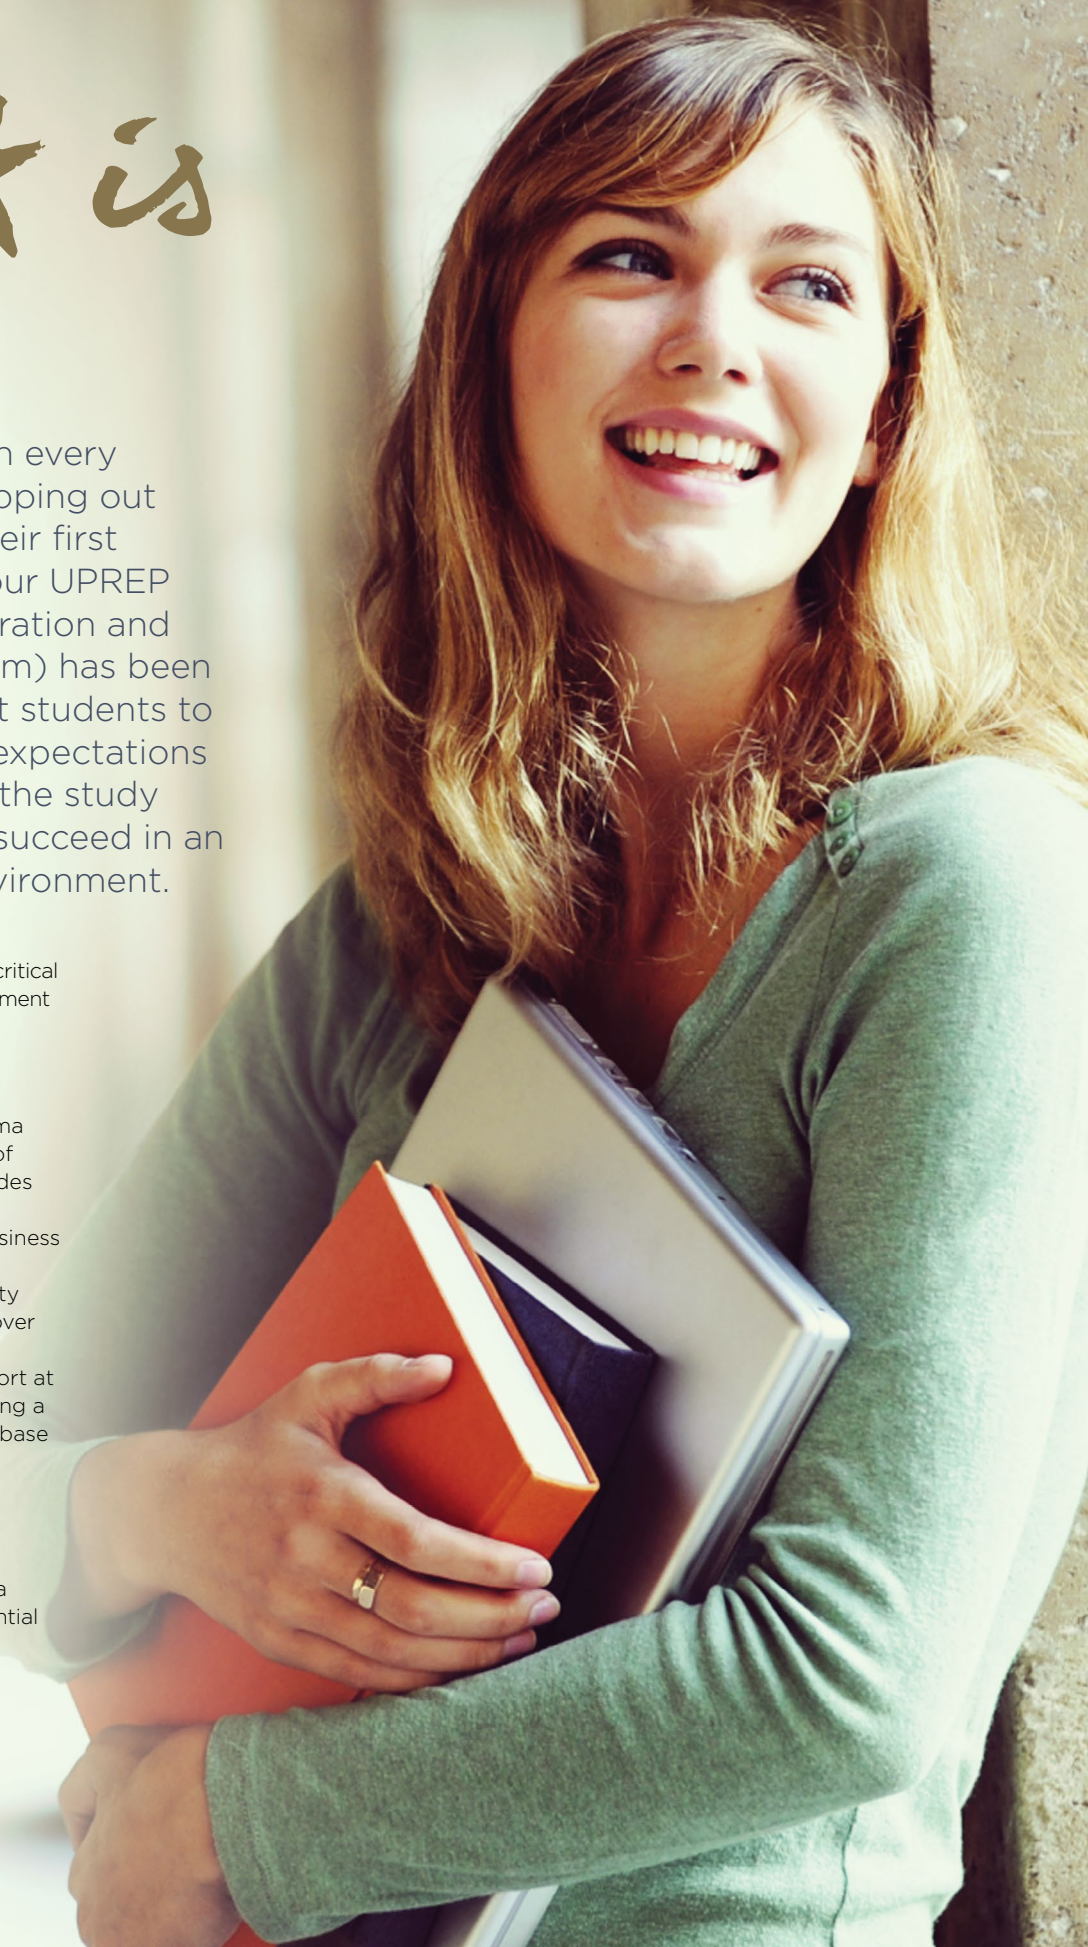

With nearly one in every five students dropping out of university in their first year of study⁽²⁾, our UPREP (University Preparation and Readiness Program) has been designed to assist students to develop realistic expectations of university and the study skills required to succeed in an adult learning environment.

Studies show these are both critical elements in a student's adjustment from school to university⁽³⁾.

Our UPREP program allows students to undertake an Accredited Australian Diploma program in their final years of secondary school that provides practical business skills and theoretical knowledge of business and management practices. The course includes university readiness workshops that cover topics such as independent learning, where to find support at university, guidance for writing a variety of assessments, database searching and referencing.

Successful completion of a Diploma through our UPREP program can result in up to 12 months of credit towards a university course and a potential saving of up to \$9,821.

Reference: saving is based on the 2015 annual fee for a Bachelor of Business at Flinders University.

The UPREP program is contextualised to assist South Australian secondary students to successfully transition into one of the following degrees:

- Bachelor of Business
- Bachelor of Commerce

Entry requirements for UPREP

UPREP requires students to be working towards a SACE and to have sufficient language, literacy and numeracy (LLN) skills. To determine a student's suitability for UPREP, each student is required to undertake a LLN test administered by Careers Australia and participate in a formal interview.

Benefits for students

- In accordance with the SACE Board's Recognition of VET Policy, students will receive 10 credits for every 70 nominal hours or 5 credits for every 35 nominal hours of successfully completed VET study. The Diploma of business can provide students with approximately 65 credits.
- Students can be eligible to receive up to one year of credit towards related tertiary qualifications at some universities.
- A nationally recognised and industry respected qualification that will assist students gain employment while pursuing further study.

Benefits for schools and parents

- UPREP Diplomas are designed to be flexible programs that will work within timetable restrictions and student commitments.
- Easy enrolment process with a dedicated member of our staff available to assist with any questions.
- All course materials are inclusive and provided by Careers Australia.
- All administrative and reporting responsibilities including all resulting, compliance audits and end-of-term validation meetings are handled by Careers Australia.

For more information, or to make an appointment with our pathway coordinators, please contact 1300 150 824 or email vets_in_schools@careersaustralia.edu.au

THE CAREERS AUSTRALIA

difference

We believe that people thrive in environments where opportunity and ambition meet, so when you walk through the doors at Careers Australia, you don't just step into a classroom.

You step into a community - one that is going to help change your life. You are joining a group of over 14,000 students and the opportunities and connections you encounter will be some of the most valuable you will experience.

We are a modern, dynamic education institution and one of the largest private institutes in Australia. With training centres throughout Australia, our facilities are world class and our staff are experts in their field. Comprehensive theory written by people with real life experience and industry connections, means you have more opportunities than you may have thought possible.

With strong links to business, valuable partnerships with industry groups and universities, we can help create pathways to your future success.

It is your success that is important to us - not just your success in your course, but your long term educational and career success.

We provide courses that equip you with industry-leading skills and offer academic and financial support if you need it. Studying with us can create a pathway into a new career, a promotion or higher educational opportunities.

Our courses are flexible and designed to suit your education level and lifestyle. Your journey towards a successful career starts here.

So join us at Careers Australia. Where Doors Slam Open.

Patrick McKendry
Managing Director/CEO

TOP 10 REASONS TO STUDY WITH

careers australia

Whether you're working towards that dream job, have your heart set on a trade, or want to kick-start your career – doors slam open with Careers Australia.

Studying with Careers Australia creates your pathway to a great career and helps you fulfil personal goals and achieve success in your workplace.

When it comes to training, studying with Careers Australia is the smart choice because of our strong links with industry, hands-on educators, and access to internships and employment opportunities.

With more than 80 courses offered in Business and Management, Building and Construction, Engineering, Hospitality, Nursing, Healthcare and Community Services, as well as industry specific short courses in First Aid, Hospitality, Construction and Business, there is no limit to your employment prospects with Careers Australia.

Your ambition, combined with Careers Australia's student focussed training and range of courses, will help open the door to new opportunities in work and life.

1

We have flexible delivery modes and training locations across Australia

At Careers Australia you will join 14,000 domestic and international students studying online or at one of our sixteen training locations across five states including in Queensland, New South Wales, Victoria, South Australia and Western Australia.

2

We support you throughout your study

Your experience at Careers Australia is important to us. Our Student Support Services, Industry Placement and Student Support Counsellors provide support and guidance to help you reach your personal and career goals.

3

We offer a wealth of resources

By studying with Careers Australia you have access to state of the art facilities and learning resources including clinical and computer labs. Our teaching equipment, full campus WiFi, library and e-learning resources, are designed to mirror your real life career experiences.

At Careers Australia we are passionate about innovation and continuous improvement. Our industry collaboration, programs and resources are kept at the cutting edge so you are best prepared for your successful future.

4

We offer expert trainers and educators

To make sure that you receive the best training and education, our educators are as passionate about teaching as you are about learning. They have the qualifications and hands on field experience that sets Careers Australia apart. We partner outstanding educators with industry leading learning materials and methods, so you get the skills you need to be job ready.

5

We offer a wide range of nationally recognised courses and training across a variety of disciplines

Your training could be an Apprenticeship or a Traineeship. You could study for a Certificate in Aged Care, Automotive, Business and Management, Building and Construction, Community Services, Counselling, Engineering, Finance, Hospitality, or Nursing.

6

We have developed flexible courses

Our regular start dates mean you have the flexibility to start studying when it best suits you. Our courses vary in duration, from one day to two years, so the right course combination is easy to create.

7

We teach programs that are constantly evolving

At Careers Australia, our program's additional articulation pathways continue to be negotiated to enable you to have a seamless transition into the university of your choice. Having job-focused qualifications also creates opportunities to gain more relevant and better-paid part-time work for those students who do not meet university entry requirements.

8

We offer courses that provide practical experience

Your experiences are valuable, they shape your world and your career. At Careers Australia, we make sure you gain practical know-how by putting you in real world industry settings. Many of our courses include work experience in a business related to your study, so you can practice your skills and build links with your industry before you even graduate.

9

We have strong industry links

We know you are motivated to start your career with practical skills as soon as you can. Our links to industry mean we develop courses that deliver the skills and experience that companies want team members to have. Links with over 3,000 organisations across Australia give you valuable industry knowledge, internship and employment opportunities.

10

We are your pathway to further education

Your study with Careers Australia might provide the launching platform to further education, rather than a career. With study techniques and disciplines developed in small classes, in a self managed, mature environment, the specialised attention you get from our educators gives you a head start to university success.

Our partnerships with Australian universities and other educational institutions give Diploma graduates recognition for the education and training you have already completed.

Starting university after studying with Careers Australia could mean superior study skills, a semester of credit and a better chance at successful university study.

UNIVERSITY

pathways

University entry and articulation

Careers Australia has articulation arrangements with a number of universities across Australia.

Students who successfully complete a Diploma may be eligible for up to one year of credit in a related degree through a system of credit transfer at selected Australian universities.

Please visit our website to view the current list of articulation arrangements.

Study Online

At Careers Australia, online education gives you the opportunity to reach your goals in a way that fits in with your life.

- Study from your own home - no matter where that is
- Study at times that suit you
- Keep your day (or night) job
- Switch to on-campus or back to online study if your situation changes
- Studying the same courses with the same educators and trainers as on-campus students.

Everything we have learned from our on campus and workplace delivery, we have put into our online courses, including outstanding support from our passionate educators.

Our courses can accommodate even the busiest of lives. Careers Australia educators stay up-to-date with the constantly changing face of industry, and our courses have been developed so you can make the most of your learning experience.

As one of Australia's leading providers of Vocational Education and Training online, no matter where you live, we will do our best to keep you connected to your future ambitions.

VET in Schools Program

Vocational Education and Training (VET) in Schools offers practical and hands on education that is designed to meet the needs of industry and maximise student career pathway opportunities and employment outcomes.

The VET in Schools initiative provides you with the right skills and knowledge to enter a specific career or industry, while giving you the flexibility of having courses delivered online, in person or a blended model.

Our courses provide a solid foundation of skills, knowledge and experience that can articulate to a range of employment options in a specific career or industry. If a pathway to university is what you seek, our Certificate III and IV courses result in selection rankings and OP equivalency - opening the door to further education.

Our close relationships with industry mean that you could have the opportunity to undertake practical work experience with some of the biggest employers in their field.

HOW TO

enrol

AT CAREERS
AUSTRALIA

Applying to study at Careers Australia is simple.

We accept direct enrolment for all courses, with the exception of Apprenticeships and Traineeships.

Step 1

To enrol over the phone, please call 1300 887 696

Our team will talk you through the enrolment process over the phone. We're here to help between 8am and 5pm Monday to Friday.

Visit the website careersaustralia.edu.au/enrol

You'll find all the information you need to enrol into your course here.

Step 2

What you'll need to provide

- ✓ Personal information
- ✓ Tax file number
- ✓ Proof of Australian Citizenship

After you have enrolled

Once your enrolment has been accepted, you will receive confirmation of your enrolment and your Welcome Pack.

Your Welcome Pack will outline the following:

- ✓ The course in which you have been accepted
- ✓ The campus where you will be studying the course
- ✓ The start and finish date of the course
- ✓ The duration of the course
- ✓ The cost of the course
- ✓ The terms and conditions of enrolment
- ✓ The refund policy.

AVAILABLE

funding

Study at Careers Australia gives you access to a range of government and industry funded schemes. This makes our education and training amongst the most accessible and affordable in the country.

Available funding and subsidies vary between courses, industries and states and is dependant on a number of personal factors. You can find more information on our website about what funding is available.

Fees

The fees associated with Careers Australia's courses are dependent on the qualification and mode of study you would like to do. Visit our website at careersaustralia.edu.au for more information.

VET FEE-HELP

VET FEE-HELP is an income contingent loan scheme provided to eligible fee-paying students to help pay for part or all of their tuition fees. VET FEE-HELP enables you to begin studying without paying any upfront tuition fees.

How does it work?

The Australian Government pays the amount of the loan direct to Careers Australia. Students then repay the loan through the tax system once they reach the minimum income threshold.

Who is eligible for VET FEE-HELP?

To qualify for VET FEE-HELP whilst studying at Careers Australia you must be:

- undertaking study as a full fee-paying student in an approved VET FEE-HELP Diploma program;
- an Australian citizen; or
- a permanent Humanitarian Visa holder who is a resident in Australia for the duration of your study.

For more information about VET FEE-HELP call us on 1300 887 696, visit our website at careersaustralia.edu.au or refer to the Department of Education and Workplace Relations website at deewr.gov.au/vetfeehelp.

**VOCATIONAL EDUCATION
AND TRAINING (VET) TO**

*higher
education*

Vocational Education and Training (VET) is an education framework that focuses on providing skills for work from secondary school to higher education.

All Vocational Education and Training qualifications delivered by Careers Australia create pathways from secondary school to higher education, and with over 200 nationally recognised qualifications across Australia, Careers Australia is sure to have a program that is right for you.

	DURATION	ACADEMIC PREREQUISITE
Bachelor Degrees	2 – 4 years	Grade 12 or Diploma
Diplomas	1 – 2 years	Grade 12
Certificates	6 mths – 1 year	Grade 12 or equivalent

qualifications

AT CAREERS AUSTRALIA

Careers Australia can assist you in developing your existing skills in a range of industry occupations. Whether you are trade qualified, or looking to develop your skills to enter a new profession, Careers Australia has something to suit your needs and achieve your career goals.

Australian Qualifications Framework

The following information is in accordance with the Australian Qualifications Framework. This diagram is a guide to the structure of courses offered at Careers Australia. **For specific course details and articulation pathways, refer to the course section within this guide.**

Level

1

CERTIFICATE I

A Certificate I course will equip you with the essential knowledge and skills required for initial work and provide a platform for further learning. You will be able to apply foundational cognitive, technical and communication skills to undertake defined routine activities and identify and report simple issues and problems. You will be able to demonstrate autonomy in highly structured and stable contexts.

Level

2

CERTIFICATE II

A Certificate II course will equip you with the knowledge and skills for work in a defined context and provide a platform for further learning. You will be able to apply cognitive, technical and communication skills to undertake defined activities and provide solutions to a limited range of predictable problems. You will be able to demonstrate autonomy and judgement in structured and stable contexts.

Level

3

CERTIFICATE III

A Certificate III course will equip you with technical, procedural and practical knowledge for work in a defined context and further learning. You will be able to apply a specialised range of methods, tools and information to complete routine activities and provide solutions to problems. You will be able to demonstrate autonomy and judgement and take limited responsibility in known and stable contexts within established parameters.

Level

4

CERTIFICATE IV

A Certificate IV course will equip you with broad factual, technical and theoretical knowledge of a specific area or broad field of work and learning. Graduates at this level will be able to use their learnings to complete routine and non-routine activities and provide solutions to a variety of problems. You will be able to demonstrate autonomy, judgement and limited responsibility in known or changing contexts within established parameters.

Level

5

DIPLOMA

A Diploma course is the highest level of study from a registered training organisation and will equip you with specialised knowledge and skills for skilled/paraprofessional work and designed to offer the student the most comprehensive skills and experience necessary to enter their chosen industry and a clearer path to further education at university. You can use your learnings to apply method and technologies to analyse information to complete a range of activities, provide solutions to complex problems and transmit information to others. You will demonstrate autonomy, judgement and defined responsibility in known or changing environments and with broad but established parameters.

APPROVED ARTICULATION PATHWAYS TO UNIVERSITY

Level

6

ADVANCED DIPLOMA

Graduates at this level will have broad knowledge and skills for paraprofessional/highly skilled work and/or further learning.

Level

7

BACHELOR DEGREE

Graduates at this level will have broad and coherent knowledge and skills for professional work and/or further learning.

**INDUSTRY LEADING TRAINING
FOR A SKILLED**

workforce

At Careers Australia we work to support business and employee growth by providing workforce skills and delivering quality training and education.

We will work with you and your employer to help develop a training plan, deliver your training, assess your achievement of skills and issue you a nationally recognised qualification upon successful completion of your Apprenticeship or Traineeship.

We have the experience and the capacity to provide industry leading training to ensure students develop the skills and knowledge that employers require in order to help their business grow.

APPRENTICESHIPS & TRAINEESHIPS

Australian Apprenticeships cover approximately 600 vocations in traditional trades as well as a range of emerging careers in most sectors of business and industry.

Apprenticeships and Traineeships are competency based training programs that may be completed full time, part time or while at school. As nationally recognised qualifications, they combine time at work with campus or workplace training and provide entry-level training for new employees to build their career and employment aspirations.

Careers Australia offers a large range of Apprenticeships and Traineeships, and there are two ways you can be employed as an apprentice or trainee:

1. You can be employed directly by a business.

The business will pay your wages and train you with the support of Careers Australia.

2. You can be employed by a group training organisation.

A group training organisation will place you with different businesses to gain on-the-job experience. It will also pay your wages and organise your training with Careers Australia.

Careers Australia can provide you with the essential training required for the successful completion of your qualification. To get started in an Apprenticeship or Traineeship that is right for you, contact your Australian Apprenticeship Centre or visit australianapprenticeships.gov.au.

Minimum requirements

To be eligible to undertake an Apprenticeship or Traineeship you must fit the following criteria:

- be at least 15 years of age;
- be working in a permanent part time or full time capacity; and
- be an Australian citizen and a permanent resident of the state that you are seeking to obtain an Apprenticeship or Traineeship.

School based Apprenticeships and Traineeships

School based Apprenticeships or Traineeships allow you to work for an employer as a paid employee and undertake training towards a recognised qualification, whilst completing your secondary school studies. School based Apprenticeships combine high school study, training and paid work. On completion of year 12, you will receive your senior certificate and have trained towards a Certificate qualification in your chosen career, as well as being paid for your time spent working.

PRE-APPRENTICESHIP AND EMPLOYMENT PROGRAMS

Pre-apprenticeship and pre-employment programs are available for Certificate I, II and III qualifications and are an opportunity to trial a trade or vocation before you take the plunge and enter into one. These programs are nationally recognised opportunities that can lead to an Apprenticeship or Traineeship and create a point of difference which will help make you a more attractive potential employee and give you valuable industry time and experience.

How do they work?

Pre-apprenticeship Programs

Pre-apprenticeship programs provide entry into nationally recognised trade qualifications. They are generally structured to run for a period of 12 - 26 weeks and include technical trade training in a simulated training environment which you can then apply within the industry whilst undertaking vocational placement.

Pre-employment Programs

Pre-employment programs provide 4 - 6 weeks of nationally recognised training, including two weeks of vocational placement with an employer. Pre-employment programs allow you to complete or partially complete a Certificate I, II or III qualification, which may articulate into an Apprenticeship or Traineeship.

What are the benefits?

Australian Apprenticeships pathways can provide a range of benefits to you as well as your employer:

- entry level skills and the knowledge required to enter sustainable employment;
- improved job placement and numeracy skills related to employment in the trade sectors;
- basic skills for working in trade related industries;
- opportunity for employers to trial a potential apprentice or trainee;
- opportunity for you to promote yourself as a future apprentice or trainee to that employer; and
- up to 9 months credit towards an Apprenticeship or Traineeship.

APPRENTICESHIPS AND TRAINEESHIP COURSES

At Careers Australia, Apprenticeships and Traineeships are offered nationally across a range of industry sectors and qualifications, including the following:

- Study skills assessment for basic literacy and numeracy
- National Police Clearance for clinical placement.

The Certificate IV in Disability is suitable for people who work in residential group homes, clients' homes, training resource centres, day respite centres, open employment services and other community settings.

This course focuses more on the skills required as a supervisor or a manager than the basic care skills, which would have been covered off at Certificate III level.

On completion of this course you will be able to provide assistance and support to people with disabilities to enhance their ability, independence and community participation.

Career Outcomes

- + Behavioural Support Officer
- + Development Officer
- + Disability Officer
- + Residential Care Officer
- + Disability Support Worker
- + Senior Personal Care Assistant
- + Lifestyle Support Officer
