

---

I'm very concerned that colac and surrounds will have no urgent care at the hospital from 10pm until 7am due to the budget cuts. this is a very important service to colac not only to us mothers but to all the families who have members working night shift in jobs where serious accidents can happen. some of those night shift companies include, CRF(abbatoir) and AKD(timber mill). I have used this service for my daughter at 3am after her temperature was high and i could not get her to settle, it was a peace of mind to be able to get her checked by the doctor after her screaming for hours. it turns out she had an ear infection, but it could have been anything. Thank you for reading
