Good evening

It has taken some time to work through the maze of links etc to be able to make a comment on this particular bill. I trust I have arrived at the correct email address.

I have heard that this Bill has been drafted by the Greens to open the doors for their agendas to be thrust upon the territories without due consultation and process.

I hope I am wrong, but I just do not trust some politicians!

I personally object to items like same sex civil unions and euthanasia on Christian grounds... and I have a lot of like minded friends!

I am the coordinator of a pastors network of around 200 Christian leaders (representing some thousands of active Christians) in the Illawarra, none of whom I believe would support this hurried and seemingly underhanded bill. I have however written this from my private email due to lack of time to get a formal submission from the wider Christian community.

Regards,

Darryl Stewart
