

---

I support Senator John Madigan's Bill.

I want no abortions funded.

I want no abortions performed; because each one spells out not only the death of a child but also a future Post Abortion Syndrome suffering for many, if not most, of the mothers who undergo it.

However, to push on and fund abortions because of the sex of any particular child is worse than racism, as it spells death for the boy or girl concerned, and is worse than sexism, for, again, it is not mere discrimination but discrimination prescribing death for one of Australia's tiniest and most vulnerable citizens because he or she happens to BE a he or a she.

Besides, how stupid the idea is in the first place!
