

Aborting an unborn child solely on the basis of gender is not a medical procedure and should therefore not be afforded Medicare benefits

- Medicare funding should be strictly limited to health procedures; taxpayers should not be funding decisions based purely on cultural or personal preference
- It is the duty of legislators to ensure every child, regardless of gender, is afforded the basic human right of life
- The law should protect the unborn given their vulnerable state, in accordance with the UN Convention on the Rights of the Child
- By providing Medicare funding of sex-selection abortions, is contributing to the increase of this abhorrent act; the government should work to see a reduction in abortion.
