

---

I am sending this email in support of the Health Insurance Amendment (Medicare Funding for Certain Types of Abortion) Bill 2013.

I do not believe that tax dollars should go to killing unborn babies simply because he or she is not the preferred gender. Indeed, there is an alarming trend world wide where sex-selection abortions are done primarily on females, not males. Research shows that already in places such as India and China there are huge problems because of sex-selection abortion, infanticide and the like. This amendment sends a strong message that such gender discrimination is unacceptable.

I believe that Medicare funding should only go to genuine medical reasons, not for a lifestyle choice.

Thank you for your consideration,

Mrs Christine Tirimacco
