### 1. Monitoring Regime

Gaming machines in the Northern Territory exist within Casino and Community environments.

## **Skycity Casino**

subject to standard casino regulation, gaming machines are monitored by the IGT Advanced Bonus System supporting both the X-series and ASP (crown) protocols.

# **Lasseters Hotel Casino**

Gaming machines are monitored by the Aristocrat DACOM system supporting both the X-series and ASP (tacs) protocols.

### **Community**

Gaming machines and Clubs and Hotels are monitored by a licensed monitoring provider, NT Tab Pty Ltd, utilising the OGLR QCOM protocol.

### 2. Data

Information relating to gaming machine performance is collected by this Office and selective data is published annually, refer <a href="www.nt.gov.au/justice/licenreg">www.nt.gov.au/justice/licenreg</a>

# 3. Regulator / Venues technology/communication protocols

This Office has no direct technology based interface with gambling venues.

### 4. Pre-commitment work

Our policy unit is working with the Senior Officials Working Group in regard to desired outcomes.
