

To Whom It May Concern,

The Australian Lawyers Alliance previously provided a submission to the Inquiry.

We subsequently applied under FOI for the release of all incidents reported by DIBP to Comcare in FY2013/2014.

As you can see, there were over 400 incidents across the department reported to Comcare.

Many of these are serious, and involve minors.

We wish to raise this to the Committee's attention as it is relevant to our submissions regarding Comcare's responsibility to investigate.

Please note that No.32 related to a sexual assault on Christmas Island on 8 May 2014, and was recorded as a notifiable incident.

Kind regards,

Emily
