Dear Sir/Madam,

I am sending this email to voice my support of the bill to ensure unborn children are afforded the most basic of human rights: life

I am not a religious nut, nor do I actively stand for many (if any causes) causes. But I find the idea of abortion for sex selective reasons to be beyond abhorrent.

I believe that abortion on the basis of gender is not a medical procedure and is therefore should not be eligible for medical benefits. I do not want my taxes going towards such things, whether they are based on cultural preferences or otherwise. Does not every child have the right to life? What consequences does abortion hold for our society, let alone abortion as a means of sex selection? I shudder! According to the UN Convention on the Rights of the Child the law should protect even the unborn, given their vulnerable state. Does that mean anything?

Thanks you for your time.

Yours,

Steve Y
