

---

Dear Senate Finance and Public Administration

I am writing to show my strong support for Senator Madigan's bill, "Health insurance Amendment (Medical Funding for certain types of abortion) Bill 2013.

Gendercide is opposed by most Australians and we should not be funding and encouraging this through our Medicare funding. I am sure that the average Australian taxpayer would not want his/her hard earned money contributing to gendercide. Medicare funding should be used exclusively for health purposes only.

Thank you for your attention

Esther Dourado
