

---

Dear Sirs/Madam,

I wish to express my support for the Health Insurance (Medicare Funding for Certain Types of Abortion) Amendment Bill 2013 because :

A) aborting a child for family balancing reasons is abhorrent and should not be supported by taxpayer funding;

B) Medicare benefits should be for needed health procedures not for eliminating babies because of their gender or for any personal preferences.

My entire family has discussed this Bill and we are all strongly in support of the Bill. We hope you will take into account the strong support for this Bill and not allow such abhorrent procedures to come into practice. More so that taxpayer funding should NEVER be permitted to support such procedures.

Yours sincerely,  
Patrick Koo and the Koo Family
