

Committee Secretary Senate Legal and Constitutional Affairs Committee PO BOX 6100

Parliament House Canberra ACT 2600 RE:

The Moderator of Medicinal Cannabis Bill 2014 Dear Committee Delegates, I suffer from over active THYROID for 6 years the only treatment other than this requires the thyroid gland to be removed or radiation therapy, also PTS which I was on Pharmaceutical anti depressant medicine, which help create the over active thyroid, I have Chronic bone pain which I was again given Pandine forte which I became addicted to then had to take myself off due to them upsetting my bowels, and I have a sight disability which affects my brain like stroke victims, have been consuming cannabis under doctors supervision and with consent of the acting specialist, due to My only pain and other symptom relief is now coming from Cannabis there is nothing else safe for me to use for the unrelenting pain made by Pharmaceutical companies. Regulator of Medicinal Cannabis Bill 2014 Submission 1 this is why I'm writing to you. The current Medicinal Cannabis bill is too limited for just terminal ill patients so that excludes myself, yet Doctors approve of myself consuming cannabis as an alternative to taking Pharmaceutical medicine, I think I should be allowed to grow my own to reduce cost and to be able to have the best that suited to my conditions anyway I would be pleased if you could consider this in your new Laws.
