

---

Dear Sir/Madam,

I am writing to put in a submission into the proposed "Health Insurance Amendment (Medicare Funding for Certain Types of Abortion) Bill 2013" legislation.

As a member of the public, I strongly support this proposed legislation. I am reminded about a case on the 8th January, 2011 (Adelaide Now/Sunday Mail newspaper) where a couple terminated twin boys just so they could have a little girl

I find this appalling - and also even more so because my tax dollars are being used to fund these activities.

Therefore like many Australians, I hope this legislation is passed and ultimately and abortions based on sex selection are banned in Australia.

It would be appreciated if you can please keep my name and address confidential.

Kind regards,
