
I am writing to SUPPORT "HEALTH INSURANCE (CERTAIN TYPES OF ABORTION) AMENDMENT BILL 2013.

1. Today human trafficking is an International Evil (let's start with this one as it is a worldwide problem). If we have gender-selective abortions this is resulting in kidnapping, sex trafficking, child abduction and women are viewed as a commodity becoming a 'disposable gender'.

2. We are allowing families to the detriment of a child, becoming 'tailor-made' families. Selfish, selfish all for a designer sex child.

3. Medicare monies should not be WASTED ON THE KILLING OF AN UNBORN BABY. This money should be for those in need of real healthcare procedures and rehabilitation.

4. Where as a society, will we end up, if we continue to demand abortion of a child simply because it is the wrong gender. We see the repercussions of this already in China and India through kidnappings and child sex abuse in orphanages.

W E M U S T S T O P N O
W !!!
