The Chairman,
Senate Finance & Public Administration Committee,
Parliament House,
Canberra.

Dear Sir/Madam,

I wish to advise you of my support for the
Health Insurance (Medicare Funding for Certain Types of
Abortion) Amendment Bill 2013 for the following
reason

At the outset I wish to state that I am
repulsed at the idea of legalised abortion for any reason
in this country. However, the thought that Medicare
Funds are being used to allow abortions for reasons
of gender selection seems abhorrent. To deny a
female baby a chance at life because of selfishness
on the part of the parents flies in the face of
justice in our so called civilised society.

Aborting a child on basis of sex is not a
medical procedure and most definitely not should
not be funded by Medicare.

Yours sincerely
Paul Ritchie.
