

My Will Concerning the No Jab No Pay forced vaccination legislation

YOUR DUTY: As my elected representative, you have been entrusted to execute My Will in accordance with your duty of office and the Australian Constitution. The purpose of Government is to create and administer laws and services, on behalf of and in accordance with the WILL of the people it represents. I can not conscientiously vote for anyone that is not willing to represent the people's will on any issue

It is MY WILL that any current legislation related to the No Jab No Pay campaign be repealed and that any future legislation related to coerced vaccination through remuneration or discrimination be abandoned. This type of legislation is contrary to both Australian and International Law. Our Constitution expressly prohibits civil conscription in order to receive welfare or childcare benefits - section 51, 23A. This legislation is also contrary to international human rights laws to which Australia is a signatory. Article 6, sect 1 of the Universal Declaration of Bioethics and Human Rights states that any preventative, diagnostic and/or therapeutic medical intervention is only to be carried out with the prior, free and informed consent of the person concerned, based on adequate information. This consent can not be coerced out of an individual by way of financial blackmail. Informed consent is also written into the Australian government's vaccine handbook and clearly states "For consent to be legally valid, the following elements must be present: It must be given voluntarily, in the absence of undue pressure, coercion or manipulation." Some parents will need to leave their jobs if they can no longer afford childcare or be forced to vaccinate their children (against their will) in order to keep their jobs. This is not informed consent and this is illegal. To impose this legislation, not only breeches human decency, but also Australian Informed Consent Laws and The Australian Constitution which guarantees Australians political, medical and religious freedom.

It is MY WILL that you, as my Representative, take any and all steps and measures to ensure that this legislation is repealed and prevented in future
