Why on earth is this government even thinking about funding abortions?? This is so wrong on so many levels!!

Abortion is a criminal act, especially elective abortion, it's murder. Fancy ending the life of an unborn baby because its a boy or girl, that's criminal and I'm disgusted in this government. Senator do the right thing and fix this. Medicare funding should be put towards other means that society will benefit from, the funding should not be there for selfish and evil parents that have no souls. Absolutely disgusting!!! I'm shocked to hear this!!!
