
To whom it may concern,

It has come to my attention that last month, Senator John Madigan introduced into the Senate the Health Insurance Amendment (Medicare Funding for Certain Types of Abortion) Bill that would remove Medicare funding for sex-selection abortions.

I heartily approve of Senator Madigan's bill, as I find abortion for any reason abhorrent, and abortion for the purpose of sex-selection especially abhorrent, as it completely tramples over the rights and dignity of the unborn child. No way should this kind of thing be subsidised by Medicare; I definitely don't want my taxes going towards that.

Thank you for reading my short submission.

**Kind regards,
Roger Valmadre**
