Dear OPC Correspondence,

Please find a request for further reinforcements from Port Moresby to fly on a charter aircraft on Monday 3rd February following further intelligence to suggest protest may continue and culminate in a major event.

In order to lock in the charter aircraft, a decision is required tonight.

Regards,

[REDACTED]

All – please see attached the final TPs. We have made a couple of minor amendments to the previous version. One of the key things suggested by IOM is that we shouldn't be offering assistance to transferees to get them to countries where they have the 'right of re-entry'. This should instead be a 'right of residence'.

ANSWERS TO TRANSFEREE QUESTIONS

1. Is there a process? What is it?

In short, the process includes:

- a. Initial transferee interviews – to obtain information about you and your journey
- b. Claims Assistance Provider interviews – to help you to document your refugee claims
- c. Refugee Status Determination interviews – to gain further information to assist the PNG Government to assess whether you are a refugee
- d. Review – independent assessment of your claims and review of the initial assessment for people who were assessed not to be refugees
- e. Determination – the final decision on your refugee status by the PNG Minister for Foreign Affairs and Immigration

People who are determined to be refugees will be permitted to settle in PNG.

People who are determined not to be Refugees must return to their home country or another country where they have a right of residence.

2. How long are we going to be here?

You are free to leave PNG and return to your home country or another country where you have a right of residence at any time. The IOM is able to assist you with this.

If you choose to remain, this will be a lengthy process. There is no definite timeframe how long you are going to be at the Manus Regional Processing Centre. Your claims will be assessed in order of your arrival and no preference is given to anyone in this refugee claim process.

3. When will we have our freedom?

You have the freedom to leave PNG and return to your home country or another country where you have a right of entry at any time. The IOM is able to assist you with this.

If you choose to remain in PNG, you are required under PNG law to remain at the Centre for as long as it takes to process your refugee claims. This is likely to be a lengthy process.

After your 30 days quarantine period, you will be permitted to go out on escorted activities outside the Centre.

4. Will transferees who have been deemed refugees in other countries be given priority in processing?

No. Your claims will be assessed in order of your arrival and no preference is given to anyone in this refugee claim process.

If you have been granted refugee status elsewhere, your documents will be forwarded to the UNHCR for verification. You should advise your Claims Assistance Provider if you have been granted refugee status elsewhere.

If you have a right of re-entry to the country where you were assessed to be a refugee, you are free to return to that country.

5. Why is there no PNG partnership

The Centre is administered by the Government of PNG under PNG law with the operational and funding support of the Australian Government. PNG Government Officials are always present and maintain overall management and control of the Centre.

If you have any questions that require my attention, please do not hesitate to forward them to me via the service providers.

6. Some of the transferees have been interviewed some time ago, what is happening with our process? What is the hold up?

The Refugee Status Determination process is complex and lengthy. There is no definite timeframe how long it will take. Your claims will be assessed in order of your arrival and no preference is given to anyone in this refugee claim process.

You are free to leave PNG and return to your home country or another country where you have a right of entry at any time. The IOM is able to assist you with this.

7. Who is responsible for us here on Manus PNG or Aust? (transferees that arrived in Darwin)

The Manus RPC is established under PNG law and the Government of PNG is responsible for the management, administration and control of the Centre.

The Government of Australia provides funding and operational support, including through contracted service providers such as IHMS, the Salvation Army and G4S.

8. Why won't Immigration allow media to come and interview us?

Strict controls have been placed on access to the centre in order to protect the privacy, identity and dignity of all people who reside here.

9. Will the Australian government take responsibility for our Mental Health problems.

The Papua New Guinean Government is responsible for the Manus RPC, however, the Australian Government has contracted appropriately trained and experienced service providers to provide services to people at the Manus RPC, including providing health and mental health care services. It is important that you take responsibility for your general and mental health well-being and that you do this in partnership with your medical practitioner. The services that are provided to you are there to help you do that.

10. The [REDACTED] Lawyer said there was a third country option, why can't we be sent to this other country?

People who have are found to be refugees will be permitted to settle in PNG.

Neither the Governments of PNG or Australia, nor the UNHCR, will assist people who are found to be refugees to arrange third country resettlement.

Refugees who do not wish to settle in PNG may independently seek to identify a third country that is willing to accept them for resettlement. You are free to leave PNG and return to your home country or another country where you have a right of entry at any time. The IOM is able to assist you with this.

11. Why are our human rights not respected?

The PNG government is a signatory to the UN Refugees Convention and PNG is committed to respecting your human rights, including by providing appropriate safety, security and care arrangements for you while your claims are being assessed.

With all rights come responsibilities: it is the responsibility of everyone to abide by PNG laws. If you break any of PNG's laws you will be dealt with under those laws.

I would also like to remind you that your behaviour and conduct at the Centre will be taken into consideration during your Refugee Status Determination. If you are found guilty of an offence, it may have an impact on your assessment.

Subject: Re: Delivery of answers to the transferees [DLM=For-Official-Use-Only]

Dear [REDACTED]

Further to your conversation this afternoon with [REDACTED] regarding timing of the messaging for Sunday can I suggest that the session gets pushed back to 14:30.

Lunch service within the RPC finishes at 14:00 which leaves no time for cleaners to clean the mess area. Given there are often transferees still eating lunch at 14:00 it will be too tight a time frame. The last session held had the transferees in the dining mess 15-30 minutes before the session started.

Can I suggest that we aim to have transferees in and settled by 14:15 and 14:25 with the aim to start the messaging at 14:30?

We would require G4S to clear the mess as quickly as possible right on 14:15 for this to happen in a timely manner.

Dear All

[REDACTED] has raised some issues regarding the proposed timing of this delivery, both DIBP and PNGICSA acknowledge these concerns, we would like to proceed with the delivery of the answers on Sunday, but would suggest it to commence at 2:00pm rather than

4:30pm. Also the preferred location would be the Mess hall in Mike compound. Can I please ask for the briefing to be held at 12:00hrs in the DIBP office on Sunday as planned. I will ensure all interpreters are available for this briefing.

Kind regards

██████

Many thanks for your email.

We consistently seek to improve the amenities at Manus Island through increased access to communications, better access to fruit and so on. This is part of our ongoing programme of providing Garrison Support. However, we disagree with your assessment of the threat posed by the current series of demonstrations, and we disagree that only 30 additional officers will be adequate. There was another spontaneous series of demonstrations last night. The intelligence we are receiving continues to point to some event involving pushing over fences or lighting fires.

The reason we need additional officers onsite is that there is inadequate fencing and it can be pushed down with little effort, whereupon access to the administration areas and maintenance areas will be almost instant. As part of our contingency planning, we are minimising the exposure of risk to this by removing everything we can, but the Satellite system and our servers are there. (The fencing was generally adequate at Villawood and although there were breaches in the high security fencing at NWP (in the raceway to Aqua Lilac) other fencing was high security. This is not the case on Manus). The medical centre was burnt down at Villawood, and, once again, the fenceline adjacent to IHMS is just chainlink and post. The transferees could be there within seconds if a deliberate attempt to gather and push the fenceline down was made. There is no CCTV as there was at NWP.

This effectively means you have to 'man the fenceline' if you are to provide a deterrent to people rushing the fence. This requires hundreds of extra staff given the high number of transferees at the Centre.

Manus Island is very remote, so it is imperative to forward base security staff in periods of tension. It is true that there are local guards available, and we are already increasing their numbers, but their attendance is not always reliable to the numbers we require. By having offshore based POM guards based there and confined to the Centre, we have instant access to extra guards.

The issue that the Transferees are protesting about is not about access to better amenity, but about knowing what is happening to them. All our reports are saying they want engagement with local Immigration staff. It has been normal in the past for previous DIBP officers and PNG ICSA officers to make themselves available, even after a protest for Q&A sessions, and this has generally resulted in an easing of tensions, even if the Transferees didn't like what they are hearing. The feedback I'm receiving is that the Transferees 'get' that they are not going to Australia, but they want to know what's happening and to see progress of some sort in status determination. The latter lack of information or progress helped cause the riots on Christmas Island in 2011, although in that case, amenities and access to P&A had almost completely broken down due to overcrowding.

I urge the department to reconsider its decision not to agree to the additional 100 guards, which we urgently need to deal with the increasing tension. We take on board the need to increase amenity and will continue to work on this.

All Port Moresby guards are trained as per the G4S Pre-Employment Security Officers Course and

most have received additional public order management training, although additional training will take place when they arrive. However, I'm not sure about your point about 'just holding ground'. That is a key requirement for any security officer, and would help to prevent the rushing of fences.

In the meantime, please confirm that you authorise the 30 seater charter for the downward revised number of guards. This will be at the same price the reinforcement on Saturday.

Happy to discuss further.

Regards,

Subject: RE: URGENT - Further Request for Staff Reinforcements from Port Moresby

[REDACTED]

The dept has considered your request at the island and national office level. Per our discussions I advise the following.

We request an wholistic approach to the operational issues identified including a stakeholder plan to focus not only on a security response but also one that focuses on amenity provided, eg access to internet, phone, fresh fruit, towels and clothing, messaging etc. Anthony will advise full rqts to your on island team.

We don't believe from the intell reports, information on ground and experience from previous outbreaks of civil disorder, that the additional number of security staff, in addition to the 30 addnl agreed to yesterday, as requested by G4s is currently warranted given that the risk rating has not increased above amber.

G4S had indicated that they have conducted local recruitment exercises for security officers. We believe they should be drawn on first prior to drawing on officers from PoM. If you could advise on this.

Notwithstanding this - approval is given to the provision of an additional 30 officers - with an undertaking from G4S that these officers are trained and able to respond in sn effective and rapid manner in the event of a deterioration in current protest activity.

We do not want a situation where officers standby or simply hold there ground. We require an effective, wholistic response with a suite of engagement measures with the transferees.

You indicated during our discussions you thought an additional 30 was not an effective response given the state of opc facilities and risks identified.

Will await any advice once you have had the opportunity to consider the depts position and approval.

Hi [REDACTED]

Talking points for Natcomms for clearance

Regards

[REDACTED]

- The department can confirm that there has been a disturbance at the Manus Offshore Processing Centre this evening.
- It has been reported that the PNG Police have arrested a number transferees in relation to the incident.
- Service providers have also reported that a number of transferees have presented themselves to the IHMS clinic for medical attention and that there has been some minor property damage to the centre.
- Any further questions should be directed to the Papua New Guinean authorities.

If asked:

Were staff evacuated from the centre?

- It is understood that all non-essential staff were evacuated from the centre.
- It is also understood that essential DIBP, IHMS and G4S staff remain at the centre.

Subject: URGENT for MO: Manus disturbance Draft Media TPs

Hi [REDACTED]

We have a media inquiry from ABC Radio News in Sydney asking us to confirm a riot at Manus detention centre and asking for details. Based on the latest Sit Reps,
I have prepared the following draft TPs for your urgent approval to go to the MO to handle this inquiry and others we expect will come through in the coming hours. Can you please approve at the earliest opportunity this evening.

- **We can confirm a disturbance at the Manus Offshore Processing Centre earlier this evening.**
- **The incident was brought under control by PNG Police and the garrison service provider, G4S.**
- **PNG Police arrested six transferees in relation to the incident.**
- **A number of other transferees sustained minor injuries are receiving appropriate medical treatment.**
- **Some property damage to the centre was sustained, including**

- damage to fences.
- Order has now been restored to the centre and the situation is being closely monitored.
- The department has requested a full report from the garrison service provider into the circumstances of the disturbance.

If asked:

Were staff evacuated from the centre?

- Some non-essential staff were evacuated from the centre and relocated to the ship, Bibby Progress, as a precaution.
- DIBP and GSS staff remained at the centre throughout the disturbance.

Thanks

All,

I've now had a good read of the last document I saw which I have re-attached here and am concerned that we are not consistently using the term residence vs right of entry/re-entry.

Questions 3, 4, 6 and 10 still make references to right of re-entry.

There is a typo at 6 in the spelling of lengthy.

The other comment and this is significant in terms of consistency with what utilise in returns and removals space and that any reference to "residence" in another country should be preceded with "long term" given some countries allow people short term entries of between two weeks and three months, these are not durable and might set unrealistic expectations about where people can go to in seeking third country options.

Perhaps we need a further line about individual circumstances will determine whether third country options are even are consideration?

All – please see attached the final TPs. We have made a couple of minor amendments to the previous version. One of the key things suggested by IOM is that we shouldn't be offering assistance to transferees to get them to countries where they have the 'right of re-entry'. This should instead be a 'right of residence'.

For-Official-Use-Only

MANUS Island is believed to be in lockdown as desperate asylum seekers' protests turned violent.

A spokeswoman from the Department of Immigration and Border Protection confirmed "a disturbance" on the island.

Refugee Action Collective spokesman [REDACTED] said riot police were called in to the detention centre as events escalated.

Tensions boiled over at a meeting on Sunday afternoon where refugees were told they would not be resettled in Papua New Guinea, he said.

"Shockingly, the asylum seekers were told that they 'will not be resettled in PNG' and if they wanted to go somewhere else, they will need to arrange that themselves," [REDACTED] said.

The riot squad were mobilised as fences were knocked down by the asylum seekers, a fire broke out and tents were destroyed, he said.

"There are reports of asylum seekers being injured by G4S guards. Some asylum seekers have been taken to the police station."

Several unconfirmed Twitter reports suggested 30 detainees may have fled from the detention centre as the riots continued.

Immigration Minister [REDACTED] could not be reached by the *Herald Sun* for comment.

Review Date: 12 July 2014

Date: 16 February 2014

Time: 09:02

Location: DIBP

Attendees:

• DIBP - [REDACTED]	•
• TSA - [REDACTED] (Chair)	•
• STTARS - [REDACTED]	•
• G4S - [REDACTED]	•
• G4S - [REDACTED]	•
• IHMS - [REDACTED]	•
• IHMS - [REDACTED]	

Item 1	Welcome & Apologies
	Apologies received from [REDACTED] (PNGICSA), [REDACTED] (PNGICSA), DIBP - [REDACTED], TSA - [REDACTED], TSA - [REDACTED] (Secretary), G4S - [REDACTED], G4S - [REDACTED], G4S - [REDACTED], IOM - [REDACTED]

Item 2	Previous Minutes reviewed and accepted
	Nil amendments have been made to the minutes of the Operations Meeting held Saturday 15th February 2014.

Item 3 Intelligence Briefing					
Item #	Date raised	Description	Action / Progress Update	Assigned	Due Date / Completed Date
3.01	Nominal Roll	Charlie compound – 6 Delta (1-5) compound – 244 Delta Nine compound – 3 Foxtrot compound – 327 Green zone – 2 Mike compound – 424 Oscar compound – 328 Onsite: 1,334 Port Moresby (medical) – 6 En route to the MIRPC - 1 Total – 1,341			
3.02	PSP/VS Update	1. One (1) transferee is currently on High PSP observation. 2. Two (2) transferees are currently on Moderate PSP observation. 3. One (1) transferee is currently on Ongoing PSP observation. 4. Three (3) transferees are on voluntary starvation.	1. Nil 2. Nil 3. Nil 4. Nil		
3.03	Movements	1. Seven (7) excursions planned for today. – Two (2) running groups – Three (3) sporting activities on the Navy field – One (1) sunset excursion – One (1) Church excursion 2. One (1) transferee due to arrive to the OPC today.	1. Nil 2. Nil		
3.03	Incidents	1. There were no peaceful protests during the day or at night yesterday, across all compounds.	1. Nil		
3.04	Intelligence	1. There were no protests conducted at the MIRPC yesterday. The weather may have had some impact	1. Nil		

		<p>on this.</p> <p>2. The most likely catalyst for any escalation of the protests, within the MIRPC, remains the DIBP/PNG response to the questions that the transferees posed on 05/02/2014 in the DIBP meeting; the meeting is scheduled to take place today – 16.02.02014</p> <p>3. Information from various sources suggests that there will be a week or month of silence in respect of the protests.</p> <p>4. There continues to be a focus on gathering information regarding organisers and agitators. The main message is that transferee concerns have been listened to and that they should give the RSD process a chance to consider their cases.</p> <p>5. This continues to be messages to those identified. Additionally, identification of those who do not wish to protest continues to take place, this allows appropriate support and reassurance to be offered for those who are wavering or have no wish to take park and this has been identified as particularly successful in respect of the numbers of transferees coming forward to indicate no interest in the protests or more significantly withdrawal from the protests.</p> <p>6. This message seems to be positively received but we continue to message key points around lawful behaviour in PNG and how unlawful behaviour may potentially affect a transferees ability to avail themselves of the RSD narrative as it progresses.</p> <p>7. The core group of protesters have been identified across the compounds and the core groups continue to consist of mainly Iranian and Iraqi transferees.</p> <p>8. Staff continue to monitor compounds for signs of</p>	<p>2. Nil</p> <p>3. Nil</p> <p>4. Nil</p> <p>5. Nil</p> <p>6. Nil</p> <p>7. Nil</p> <p>8. Nil</p>		
--	--	---	---	--	--

		attempts to manufacture alcohol and their effects. 9. TSA and G4S staff continue to have a presence in compounds and engaging with transferees in attempts to alleviate the tension in compounds.	9. Nil		
3.05	Facility risk rating	Threat of Voluntary Starvation – GREEN Self-Harm / Suicide – GREEN Violent Unrest – AMBER Centre Status = AMBER	The overall MIRPC Centre Risk Status is currently AMBER due to the centre being moderately tense and intelligence indicating that a potential exists for violent unrest.

Subject: Reestablishing BAU [DLM=For-Official-Use-Only]

For-Official-Use-Only

All

We have had our meeting this morning regarding re-establishing BAU.

An initial damage assessment has been completed and G4S are providing a rundown on urgent works, a CAPEX request will be coming through shortly.

We are looking to have the entry interviews recommence this afternoon with CAPs recommencing tomorrow.

We will meet with the base XO shortly, requesting that we be able to put in place road blocks along route pugwash to minimise the chance of further disruption to the centre from the local population.

Local police are currently onsite and in discussion with Wilson from ICSA. More information should be forthcoming shortly in relation to charges and anticipated length of detention at the police station.

Further discussions are being had between G4S and the police with regards to Mobile Squad walk throughs/area familiarisation. They are also exploring the opportunity for a search of the compound as last night provided opportunity for acquisition of weapons.

TSA are bringing staff back onsite with a focus on P&A and individual engagement.

At this point in time, a small contingency of TSA locally engaged staff are onsite and G4S are managing the level of locally engaged staff within the centre. At this stage there are no locally engaged staff within the compounds.

All agencies are managing their staff to assist in managing fatigue, maintaining services and ensuring we are well placed to manage any further disruption. We will continue to monitor the

staff's response to the situation, at this stage there may be a few staff from across agencies returned home. From the DIBP perspective, one CAPs lawyer and one interpreter are likely to return early.

We are also looking at a strategy regarding the reintroduction of the messaging delivered yesterday afternoon prior to the commencement of incidents. Our preferred strategy here on island is to have the document badged with the ICSA and DIBP logos, translated and distributed to transferees. Wilson has agreed that this is a sensible strategy. Jeffrey is not currently onsite and has advised he is likely to be in at around midday. [REDACTED] do we have your approval for this? If so can you please advise a timeframe for translation?

We have advised G4S to refer to the NatComms duty phone number in response to any media enquiries. I am happy to do a spot on Radio Manus if you would like. [REDACTED] please advise if you would like this to proceed and I will draft some talking points, I think the key to any local communications would be that the situation is in control, cooperation between G4S and the police is ensuring the security of the centre and the safety of the transferees and the local community.

The two Wilsons guys onsite will be briefed by [REDACTED] on all relevant information and the same information will be provided to Transfield once onsite.

Let me know if you would like any further information or have any suggestions.

Item 1	Welcome & Apologies
	Apologies received from [REDACTED] (PNGICSA), [REDACTED] (PNGICSA) and IOM.

Item 2	Previous Minutes reviewed and accepted
	Nil amendments have been made to the minutes of the Operations Meeting held Sunday 16 th February 2014.

Item 3 Intelligence Briefing					
Item #	Date raised	Description	Action / Progress Update	Assigned	Due Date / Completed Date
3.01	Nominal Roll	Charlie compound – 8 Delta (1-5) compound – 245 Delta Nine compound – 5 Foxtrot compound – 325 Mike compound – 414 Oscar compound – 328 Onsite: 1,325 Lorengau Police Station - 8 Port Moresby (medical) – 6 Australia (medical) - 1 Total – 1,340			
3.02	PSP/VS Update	<ol style="list-style-type: none"> One (1) transferee is currently on High PSP observation. Three (3) transferees are currently on Moderate PSP observation. One (1) transferee is currently on Ongoing PSP observation. Two (2) transferees are on voluntary starvation. 	<ol style="list-style-type: none"> Nil Nil Nil Nil 		
3.03	Movements	<ol style="list-style-type: none"> All excursions have been suspended for the day. One (1) transferee is scheduled to depart the MIRPC today. 	<ol style="list-style-type: none"> Nil 		
3.03	Incidents	<ol style="list-style-type: none"> There was significant disorder across the MIRPC last night in Foxtrot, Mike and Oscar compounds. Answers to questions posed by the transferees was not received well by community representatives and protest action began in Oscar as transferees who attended the meeting returned to the compound. G4S personnel cleared on-involved transferees from Oscar compound into Bravo and Charlie compounds. 	<ol style="list-style-type: none"> The lack of protesting could be attributed to weather conditions. Nil 		

3.04	Intelligence	<ol style="list-style-type: none"> 1. Intelligence has been received regarding possible helicopters en route to the MIRPC chartered by Australian media. 2. Intelligence has been received indicating that there may be further possible protests from Mike compound. 3. There were approximately 300 transferees involved in protests across the MIRPC yesterday. 4. Intelligence suggests that there will be further protests in Mike compound at some point today. 5. Intelligence suggests that there will be further protests in Foxtrot compound at some point today. 6. Intelligence suggests that there is consideration anger and fear from transferees regarding PNG nationals. 7. There is a raised chance of self-harm and attempted suicides. 8. There continues to be a focus on gathering information regarding organisers and agitators. The main message is that transferee concerns have been listened to and that they should give the RSD process a chance to consider their cases. 9. Service Providers continue to communicate messaging that unlawful behaviour in PNG may affect their RSD process. 10. Intelligence suggests that there will be an escalation of disorder in the days after the DIBP meeting if the meeting fails to resolve issues for the transferees in Oscar compound. 11. Information continues to be received from multiple sources indicating that the peaceful protest may escalate and result in a larger event such as fence jumping or fire. 12. Information of possible increased contraband entering during this time as the peaceful protest 	<ol style="list-style-type: none"> 1. Nil 2. Nil 3. Nil 4. Nil 5. Nil 6. Nil 7. Nil 8. Nil 9. Nil 10. Subject: Clinic status update

1. Only one patient admitted to clinic last night remains which is a broken patella
2. Three critical cases were transported to Lorengau last night via ambulance – head injury, gunshot (not life threatening) and facial trauma
3. The balance of cases were discharged as the night progressed. There are 9 CT head, neck or face scans required. The details around these will firm today following input and review via our resources in Sydney.

In terms of numbers treated, as DIBP were advised and agreed to last night, due to the sheer volume and nature of presentations against available resources we do not have good records on cases, numbers, diagnosis, the best numbers available coming from SMS between myself and

our regional manager during the night.

Prior to withdrawal from the clinic we treated three transferees and two stakeholders – all minor cases.

Post withdrawal:

Gunshots were heard as the staff and supplies arrived at the Bibby wharf.

Within 10 minutes of withdrawal first presentations were appearing at Bibby as we were setting up triage on wharf. We had an expat clinic set up inside the Bibby set up earlier.

Approx within 15 minutes we had 11 cases – 1 critical (severe facial)

15 more (total 26) were at Bibby within a few minutes including one gunshot and 1 severe compound head injury. Multiple vehicles were constantly appearing enmasse.

Within very short period, total 38 comprising 2 critical, 11 serious and 25 minor

Reached peak at 40 minor, 2 critical and 13 serious but to note we were actively discharging at the same time. 40 transferees were discharged in the space of an hour.

THUS, the true number of patients seen is not known with accuracy but we estimate best guess there were at least 100 presentations.

In terms of stakeholders, all G4S, there were two serious lacerations to arms and numerous abrasions, these latter staff returning to duty after initial assistance with one exception where the expat G4S had multiple low end injuries and did not return to duty but was discharged.

SMO/HSM reconciliation performed 0230hrs:

Total 18 patients requiring ongoing care, 9 being CT.

Between 0230 hours and 0630 hours the only transferee in the clinic is the patella referred to above.

We are anticipating a significant number of these clients to return for follow up assessment/treatment today, in addition to G4S staff but will advise.

We also anticipate a massive spike for mental health referrals from both transferee population and stakeholder staff groups.

Records will be kept for these patients.

Regards

Hi [REDACTED]

Can you please send me an email which documents what TSA are doing or not doing. What has been requested on island and what the response has been. What you would like us to do.

This will help in our request to have services ramped up

Thanks

Thanks [REDACTED]

Do you have a general contact number for TSA on island that I could give for this enquiry? I have had a look at the website, but I can only find phone numbers for within Australia (this person is in Indonesia). I would hope that TSA would be aware of privacy restrictions on release of information. Sorry for the additional questions

Kind regards

Hi [REDACTED]

The department would not be the ones to have this conversation with the individual, if anything the person would need to contact The Salvation Army, keeping in mind that The Salvation Army is in the midst of transitioning out to a new service provider. We would need to be careful with this request as the transferee would need to give permission for any information to be released to a third party.

UNCLASSIFIED

Hi [REDACTED]

Hope you are surviving OK on island.

I have had the following question from IHMS National Office:

“Our Media and PR department received a call yesterday from a man in Indonesia claiming that his brother is at Manus Island and that he is worried for his welfare. We don’t have any more details than that I believe, such as who the detainee is.

We would like to pass on a Department of Immigration contact for him to speak with directly to discuss his concerns.

Is there any chance you could provide me with a contact number for someone at DIBP that we can pass on to this person? Or if not, can you suggest who I can contact to ask about this?

Any information you can provide would be most appreciated.”

Could you please advise me of a contact - possibly TSA I guess?

With thanks for your help

To: [REDACTED]
Subject: RE: URGENT more questions [DLM=For-Official-Use-Only]

1. Sitrep #10: 19:12 hours local time, four Mobile Police Squad dog patrols were deployed inside and outside. But sitrep #13 says PNG Police did not centre the facility at any time. Can you please clarify if PNG Police entered the centre at any time during the disturbance? YES. AT 23.37 ON 17 FEB IT WAS IDENTIFIED THAT POLICE MOBILE SQUAD HAD ENTERED MIKE COMPOUND.
2. G4S log: 21:53 hours local time, Delta transferees attempted to get on to the roof. They were breaking everything to arm themselves (this was thought to protect themselves) (is it correct to say they were trying to protect themselves?) WE ARE UNABLE TO CONJECTURE ON THE INTENT OF THOSE WHO ARMED THEMSELVES.
3. G4S log: 23:22 hours local time, multiple gunshots were fired into the air

(who fired the shots – PNG Police?)

•
YES, MOBILE SQUAD WERE THE ONLY GROUP SEEN CARRYING WEAPONS. (Was this when the transferee was shot in the buttocks and if so, how if shots were only fired into air?). THERE WERE MULTIPLE SHOTS FIRED INTO THE COMPOUND AS WELL. But Sitrep #13: At approximately 01:00 hours local time, the PNG Police fired shots. Were gunshots fired on two occasions? THERE WERE MULTIPLE GUNSHOTS FIRED FROM 2232H.

4. G4S log: 23:24 hours local time, Capsicum spray gas grenades fired. Can you please confirm that it was the PNG Police who shot the capsicum grenades? Also, was capsicum gas used at any other time? THE LOG IS INCORRECT. CS GAS WAS DEPLOYED INTO THE AREA SURROUNDING G1. CONFUSION DUE TO INEXPERIENCE OF INDIVIDUALS REPORTING THE EVENT. THE AUTHOR OF THIS RESPONSE WAS IN CLOSE PROXIMITY OF THE CANNISTER WHEN IT LANDED AND HAS UNDERTAKEN CS GAS TRAINING INCLUDING DEPLOYMENT OF CS GAS IN CROWD CONTROL SITUATION. THE CANISTER FIRED WAS CS GAS, NOT CAPSICUM (NORMALLY DEPLOYED AS A LIQUID SPRAY AT CLOSE PROXIMITY).

5. G4S: 23:10 hours local time, tension high between Foxtrot and Oscar over Delta not joining in. Can you please confirm if Oscar is correct, G4S log has 'F & O' or the 'O' could be D)? THE TENSION WAS BETWEEN OSCAR AND DELTA COMPOUND WHICH ARE DIRECTLY OPPOSITE EACH OTHER. THE MENTION OF FOXTROT COMPOUND IS ERRONEOUS

6. Can you please more information about an incident (not sure what source) that G4S staff approaching Mike compound were met with jeers and chanting. They withdrew from the area? Time, details etc. AT 1938H CHANTING STARTS AT MIKE COMPOUND WHEN G4S NATIONALS PASSED MIKE COMPOUND AFTER THEIR SHIFT CHANGE WAS CONDUCTED. AT THAT TIME APPROXIMATELY 100-120 TRANSFEREES WERE WHISTLING AND CHANTING.

7. There has been some mentioned of transferees 'on the oval' what does this mean? Who were they and where were they staying (e.g. were tents put up)? DURING THE COURSE OF THE EVENING OVER 400 TRANSFEREES (INCLUDING IOM CLIENTS) SELF IDENTIFIED AS BEING NOT INTERESTED IN PROTESTING AND REQUESTING TO BE PLACED UNDER G4S PROTECTION FROM THE VIOLENCE ONGOING IN THE CENTRE. DUE TO

THE POTENTIAL FOR VIOLENCE THROUGHOUT CENTRE THEY WERE MOVED TO THE PNGDF FOOTBALL OVAL (OUTSIDE THE PERIMETER OF THE MIRPC) FOR THEIR OWN SAFETY AND SECURITY.

The Minister's office also had the following question:

How many police were deployed? How many G4S guards were involved in the use of shields?

- POLICE

- AT 1858H MOBILE SQUAD REPORTED TO G4S THAT THERE STRENGTH STATE WAS:

- 46 MOBILE POLICE ON HAND

- 36 MOBILE SQUAD MEMBERS

- 10 DOG SQUAD MEMBERS

- 4 X DOGS

INCIDENT RESPONSE TEAMS 17 FEBRUARY

TOTAL STRENGTH =

ALPHA TEAM

- 3 x EXPATS

- 14x PNG NATIONALS

BRAVO TEAM

- 3x EXPATS

- 13 x PNG NATIONALS

CHARLIE TEAM

- 2x EXPATS

- 13x PNG NATIONALS

Hi [REDACTED]

I am compiling a chronology of events for the Minister's submission (see attached). Some information in the sitreps sent on the night conflict or are confused with the G4S log. Some of the information also needs clarification.

Grateful if you could advise on the following points:

1. Sitrep #10: 19:12 hours local time, four Mobile Police Squad dog patrols were deployed inside and outside. But sitrep #13 says PNG Police did not centre the facility at any time. Can you please clarify if PNG Police entered the centre at any time during the disturbance?
2. G4S log: 21:53 hours local time, Delta transferees attempted to get on to the roof. They were breaking everything to arm themselves (this was thought to protect themselves) (is it correct to say they were trying to protect themselves?)
3. G4S log: 23:22 hours local time, multiple gunshots were fired into the air (who fired the shots – PNG Police?) (Was this when the transferee was shot in the buttocks and if so, how if shots were only fired into air?). But Sitrep #13: At approximately 01:00 hours

local time, the PNG Police fired shots. Were gunshots fired on two occasions?

4. G4S log: 23:24 hours local time, Capsicum spray gas grenades fired. Can you please confirm that it was the PNG Police who shot the capsicum grenades? Also, was capsicum gas used at any other time?
5. G4S: 23:10 hours local time, tension high between Foxtrot and Oscar over Delta not joining in. Can you please confirm if Oscar is correct, G4S log has 'F & O' or the 'O' could be D)?
6. Can you please more information about an incident (not sure what source) that G4S staff approaching Mike compound were met with jeers and chanting. They withdrew from the area? Time, details etc.
7. There has been some mentioned of transferees 'on the oval' what does this mean? Who were they and where were they staying (e.g. were tents put up)?

The Minister's office also had the following question:

How many police were deployed? How many G4S guards were involved in the use of shields?

Hi [REDACTED]

Canberra is still piecing together a chronology of events and had previous information that Mr Barati was transported to hospital by ambulance at 3.30am and he died en route.

The death certificate has death pronounced at 3am. Could you please advise when the ambulance left the IHMS clinic (at the bibby) as the 3.30 timeslot is clearly incorrect?

Subject: URGENT - Security Guarding & Escort Required [SEC=UNCLASSIFIED]

Hi [REDACTED]

As discussed we urgently need 2 x security guards deployed to The Funeral Home at Erima no later than 1730hrs today. They are to remain onsite, one guard at the front and one at the rear

of the premises, until 2000hrs Tuesday, 25 February (unless otherwise advised). Please confirm with me via phone once they arrive.

We also require an escort vehicle to be positioned at the airport no later than 1730hrs. Justin Fraser from DFAT will call Charlie Base to advise the exact location the escort will be required.

Rose, when you can please send a work order to Randel detailing the above.

Thanks

Dear [REDACTED]

As discussed below we have 4 patients requiring urgent movement to Port Moresby:

Patient [REDACTED] :

Knocked unconscious yesterday - hit to right side of jaw.
When regained consciousness - agitated and drowsy
Today - amnesia of entire event. Swelling on right side of face - ?facial / jaw fracture - malocclusion, does not want to open mouth. Likely facial fractures.
Will need CT head and face.
Also has painful right knee – possible fracture
GCS 13. Lies with eyes closed. Confused. Has had morphine overnight
Haemodynamically stable
Will need stretcher and medical escort via air ambulance

Patient [REDACTED] :

Comminuted closed fracture patellar left, full length POP backslab.
Requires imaging and internal fixation.
Requiring significant analgesia and will need to keep left leg extended - needs stretcher
Can be accommodated on a commercial aircraft with stretcher and medical escort – will need 24 hours to seek clearance from airline

Patient [REDACTED] :

Hit in the face. Lost upper incisors. Right incisor - driven up into bone.
There was a huge split lip up to base of nose - stitched together
Definite areolar fractures and will require maxillofacial/dental input
Receiving antibiotics and haemodynamically stable
Can be moved seated

Patient [REDACTED] :

Large laceration 20cm across front of neck - horizontal.
Lost a lot of blood. On probing - does not look like gone through deep structures.
No hoarse, no bubbling, carotid and jugular intact.
Washed out and stitched back together.
Antibiotics.
This morning - remains haemodynamically stable.
No haematoma in neck however it is recommended he should be properly explored - washed up and closed up
Can be moved seated

Proposed plan

1. We have a concurrent air ambulance leaving today for a G4S employee with a potential intracerebral bleed that can accompany one of the patients as a seated passenger – we recommend that patient [REDACTED] is the priority to accompany this patient. He can be dropped off in Port Moresby and admitted to PIH.
2. We are also seeking approval for one air ambulance to take stretcher patient [REDACTED] and accompanying passenger [REDACTED] to Port Moresby.

3. Commercial stretcher movement for [REDACTED] to Port Moresby

All patients can be assessed and managed at PIH.

Kind regards,

[REDACTED]

For-Official-Use-Only

Good Morning SLO Teams

The situation on Manus Island Offshore Processing Centre deteriorated overnight and staff were evacuated from the facility at approximately midnight. All staff and service provider staff are safe and there has been no reports of injuries.

A number of transferees were injured during the protest activity and are receiving medical treatment. Initial reports suggest that there is some minor property damage.

PNG Police assisted in restoring order to the facility with G4S engaging with transferees.

While there will be a significant level of interest in these events by detainees and staff within our mainland facilities, it is important that we ensure any investigations and future actions to support staff at the Manus Island facility are conducted without interference.

To this end, the above information is provided for your information only and in order to assist your understanding of events which then assists in gauging the potential impact within the detainee population at your facility.

Please ensure that you and your teams engage with your stakeholders and service provider staff about remaining vigilant to any change in detainee behaviour. Please forward reporting through to the Detention Intelligence mailbox, [REDACTED] and myself if the situation on Manus Island is observed to be impacting the mood and atmospherics within your facility.

Detention Operations National Office will ensure that coordinated reporting on mainland detention network stability and mood is circulated to the SES.

Regards

Dear [REDACTED]

Urgent request from the MO please. I realise you are flat out so I apologise.

The questions are as follows:

How many sweeps and searches were undertaken of the Manus OPC?
How many walk throughs were undertaken by police, and when did they start?

I have confirmed that the time frame that is of interest is the past week or so. If the info happens to be readily available, info for the past month would be appreciated.

Kind regards

Hi [REDACTED],

I have been asked by [REDACTED] if it is possible for him to use a phone to call his family in Iraq so they do not worry about him as they would have heard the news of Manus riots. He has not been able to contact them as they don't go to the other compound to use the phones now.

He also wanted to know if his friend in MIKE compound was ok as he would have had nothing to do with the riots and he is very worried about him. His friend is [REDACTED] and his name is [REDACTED].

Would TSA be able to facilitate a phone call and let him know that his friend is OK?

Cheers, [REDACTED]

Hi [REDACTED]

I can confirm with you that the ambulance departed the clinic at the Bibby at 0200hrs.
Mr. Barati was declared life extinct on arrival to Lorengau Hospital at 0300hrs.
Please let me know if I can clarify further.

Regards,

For-Official-Use-Only

Hi [REDACTED]

Canberra is still piecing together a chronology of events and had previous information that Mr Barati was transported to hospital by ambulance at 3.30am and he died en route.

The death certificate has death pronounced at 3am. Could you please advise when the ambulance left the IHMS clinic (at the bibby) as the 3.30 timeslot is clearly incorrect?

Regards

Dear [REDACTED]

Please note the following information from TSA to inform the Chronological Order for 17 February 2014:

16:06 last of TSA staff exit Delta Compound (outreach engagement with transferees).

17:32 last of TSA staff exit Foxtrot Compound (outreach engagement with transferees).

Cigarettes were distributed to Delta and Oscar prior to 16:00.

17:00 last of TSA staff depart MIRPC and return to Bibby or home (Manusian Staff).

[REDACTED] and I left the MIRPC when directed by you (recorded in Chronology).

TSA had limited engagement in Oscar and Mike Compound on 17 February 2014, as directed by the Sierra One in each of these compounds.

Please advise if you would like further information.

Regards

[REDACTED]
We have property in trust (\$60) as well as personal clothing items and effects for REZA BARATI.
We will hold on to them until you tell us where you want them sent.
I would suggest that they get sent home with the body.

Hi [REDACTED]

16th Feb 2014 face to photo check on 17th Feb at 0710hrs. All accounted for.
After the 19th Feb 2014 incident a personnel numbers check was conducted. Not all personnel have their ID cards due to the situation on the ground.
Currently we are undertaking photo book to individual transferee check. Confirmation of numbers will be to the department this afternoon by 1800.

Regards

Hi [REDACTED] and [REDACTED]

Grateful if over the weekend you are able to devise a plan which enables Transferees to connect with concerned friends or relatives.

The department has had a large volume of inquiries from concerned friends or relatives of Transferees accommodated at Manus OPC wishing to make contact

[REDACTED] - grateful for your advice also on the timeline to fix the Internet rooms and the telephones.

Happy to discuss tomorrow if required,

Kind regards
