

I write to you in support of the bill to ensure unborn children are afforded the most basic of human rights: life. There are many couples out there who can't even have children through health reasons and would do anything to have a child : To hear that other couples choose to abort due to cultural reasons is heartbreaking :what gives a human the right to deny life to another? What are we teaching our children and future society if we are able to just abort another's life for our own selfish reasons?
