

Dear Senator Madigan,

I support your Bill 2013 removing Medicare Funding for certain types of abortion. No one has the right to use my tax money to fund their personal whims such as gender selection. This selfish act is worst than abortion as it discriminate a certain gender its right to life. It is worst than the other forms of discrimination banned in both our Constitution and international law. The purpose of Medicare as envisioned by our Parliamentarians is, among other things, to promote health and well being of Australians and not to destroy and kill unborn Australian babies out of personal preference of parents.

God bless to you and we pray that there will be more parliamentarians Australia wide of pro-life and pro-God.

A. Deverala
