ACT 2600

Dear Ladies and Gentlemen of  
this Committee.

I feel that funding medicare benefits  
for abortions based on a sex gender preference  
is immoral racist and unAustralian. Aborting  
a child because it is a boy or a girl is not a  
medical procedure and should not receive a  
Medicare benefit.

Also Aborting a child for "family  
balancing reasons is abhorrent. It should not be  
supported by taxpayer funding. Every child  
should be welcomed by the Australian  
government regardless of whether it is a boy or  
girl.

yours sincerely
