

---

To whom it may concern,

As a Greek Orthodox Christian I object to Medicare funding of abortions purely on the basis of the gender of the unborn child. How is gender selection of an unborn child classified as a medical procedure?

Each child has the right to life regardless of their gender.

What next?

Lets get Medicare to pay for an abortion because the baby has brown/blonde hair or brown/blue eyes and that's not what the mother/father wants?

Every child has the right to life and deserves to be protected from the minute it is conceived. Life is at conception not at birth.

Babies are not a disposable item.

Regards Christina
