

---

Dear Sir/Madam:

I express my strong support for Senator John Madigan's bill to disallow Medicare funding for sex selective abortions, affecting as it does mainly female babies.

Apart from the horror of the barbaric extermination of (foetal) human life, it is also sociologically quite unacceptable to upset the gender balance in the community. If persisted with, this outrageous practice could eventually deny a young man a bride.

Please support Senator Madigan's pertinent legislation.

Kind regards,

Spero Katos
