

---

I register my support for the bill.

Medicare should not be funding abortion of a child solely on the basis of gender as it not a medical procedure, but the choice of the individual/s concerned

Gender disproportion will be inevitable if abortion solely on basis of gender is allowed.

Every unborn child should be given the right to live, regardless of gender.

Abortion is the wilful taking of a life, and the government should be taking every step to quash this terrible act.

Mary Collins
