

---

Dear senator.

I am emailing you about my will to have the banking industry regulated and made accountable for their actions .

We could look at doing like Iceland did and charge and incarcerate their bankers that partook in the fraudulent behaviour that enslaves the loyal subjects .

As a government you can print legal tender that isn't a instrument of debt .

It is my will that you look seriously at the bank reform submission .

How do you plan on balancing the books or are we to continue to trade insolvently?

Regards .

Matt Monk.
