Criminal, civil and administrative penalties for white collar crime Submission 19

Dear senator.

I am emailing you about my will to have the banking industry regulated and made accountable for their actions .

We could look at doing like Iceland did and charge and incarcerate their bankers that partook in the fraudulent behaviour that enslaves the loyal subjects .

As a government you can print legal tender that isn't a instrument of debt.

It is my will that you look seriously at the bank reform submission.

How do you plan on balancing the books or are we to continue to trade insolvently? Regards .

Matt Monk.
