

Thursday 4th April 2013

Submission on Senator John Madigan's
"Health Insurance Amendment (Medicare Funding
for Certain Types of Abortion) Bill 2013."

It is not acceptable to me as an Australian tax payer, that Medicare funds be used for gender-selective abortions.

Many millions of girls have "gone missing" because of gender-selective abortion in the world today.

As an Australian woman, I do not support the use of Medicare funds for gender-selective abortions, simply because the baby is a girl. A girl has the right to live because it is her most basic human right.

Marion Isham.
