Q147

Question: Are those percentages different between Airport Lodge and NIDC?

Answer: Please see tables below for information on clients in Darwin as at close of business 26 September 2011. Information is based on data in departmental systems.

Client Processing Stages as a percentage by facility population.

*The 7% of the population at NIDC awaiting an entry interview as at 26 September 2011 may be attributed to the pipeline of cases awaiting processing as a result of the Malaysia announcement. On 5 September 2011, following the High Court decision, the department began processing claims of the more than 300 boat arrivals who had been subject to transfer under the arrangement with Malaysia.
