

To The Senate Finance and Public Administration Committee

11 April 2013

Dear Sir,

I want to make a submissions in support of Senator John Madigan's **"Health Insurance Amendment (Medicare Funding for Certain Types of Abortion) Bill 2013"** due to following reasons.

I believe abortions performed solely due to the gender of the fetus are a form of gendercide. These procedures are not performed for decent medical reasons to terminate a normal fetus and should not be reimbursed by Medicare. Medicare Australia should not waste money on killing unborn baby because the gender of the baby is not desired by the parents.

Yours Truly,
