

Submission to Inquiry: Health Insurance Amendment (Medicare Funding for Certain Types of Abortion) Bill 2013

24th April 2013

Dear Sir/Madam

I wish to express my abhorrence of Medicare funding of abortions in Australia, especially the later phenomena of gender-specific abortion. Australia cannot call itself a civilized country while we legalize and fund the killing of female babies. Please stop the funding of gender-specific abortions.

I also ask that all female members of Parliament stand up for women's rights and stop gender selective abortion.

Peter Feltoe
