

Hello, we are french and not very good in english, excuse us.

But it's very important to write something against windfarm because we have a big problem with that.

If you go on our site internet ( [www.chateaudebourgon.com](http://www.chateaudebourgon.com)) you understand immediatly.

Previous windfarm near our chateau is dramatic for the old building (XV-XVI°) the landscape, the bats, night and day birds ....

We are totally against these windfarms because all around is destroyed. The population is also very angry and don't realize what happens so rapidly, just when the windfarm is built. It's too late.

Please help us against the windfarm.

**Alain & Isabelle Ducatillon**
