### The Senate Inquiry into Former Forced Adoption

My sons Father \_\_\_\_\_ awaited for a call from the Hospital to ask him to have a say in what was to be the future of our son. That call never came and he assumed I went home with our son.

The Institution I was confined in had all the details of \_\_\_\_\_ as did the Hospital, and his name was absent from the Particulars of Birth Registration Form which was the document that the Registra of Births Deaths and Marriages acted upon to formulate my sons birth certificate. This evidence shows the intent to exclude the father from my son's life and thus implies simplification to the intended process of forced adoption. If \_\_\_\_\_ name had been put on the original document from the Hospital, his consent to any future adoption would have been required by Law. (see previous attachments of pre birth documents showing my son's fathers details).
