
Good Morning

I would like to give my support for the Health Insurance (Medicare funding for certain types of abortion Amendment Bill 2013), for reasons being that aborting a baby because it is a boy or girl, is not a medical procedure, and should not receive medical benefits. As a tax payer I do not want I do not agree our taxes should support abortion of **any** kind. Gender based abortion is a very wrong, an ultrasound from 13 to 14 weeks clearly shows the development of a child , then to abort because absurd reasons such as “ family balancing “ is very disgusting. What about the value of the Childs life? It is very disgusting to think that a boy or girl was unwanted because mum or dad didn't like the gift of a precious life they had been given to them so they terminate it on that basis because is just didn't fit to their likings.. Whatever happened to the preciousness of life? Every child is loved and created by God. Please note that in China as well as India are having terrible consequences from gender selection, in fact in China there are now 100 males to 120 females under the age of 20. In India there are just 914 girls ages 6 and under to every 1000 boys that was in 2011.

When we think we can take a life into our own hands, then destroy it because it was unwanted..we reap the consequences of our actions. I am a mother of 3 Children and they are all beautiful gifts from God, are a wonderful joy to me and I thank God for them every day.
