Dear Committee Secretary,

On Tuesday 23rd April 2013, I met with the then Shadow Minister for Infrastructure and Transport, and now Deputy Prime Minister of Australia, the Hon Warren Truss MP, and presented him with a copy of this report (attached).

I wish to submit it for your consideration, it captures both Queensland State Government reports and Queensland Rail studies and a Joint State & Federal Government report into the duplication of the North Coast Rail Line between Brisbane and the Sunshine Coast and up to Cairns in far north Queensland.

It may contain information of some benefit to this inquiry.

I would be happy to make myself available to provide further information, or attend any briefings, or answer any questions regarding this important subject.

I wish you all the very best for your inquiry.

With kind regards,

Jeff Addison

Sunshine Coast commuter advocate
