To the Members of the Committee,

REGARDING THE SUBMISSION FOR HEALTH INSURANCE  
ADMENDMENT (MEDICARE FUNDING FOR CERTAIN TYPES OF  
ABORTION) BILL 2013

I completely support this Health Insurance Admendment.

Medicare funding should not be given as section 17A(1)(b) currently states "the termination is carried out solely because of the gender of the foetus."

The termination of the unborn child, at any stage of its existence, is not a medical procedure and shouldn't be funded by Medicare

\* Gender selection is utterly unacceptable in a free country which is built on principles of justice, equality and the innate dignity of a human being.

Yours truly,

FIGINA REEVES
