

---

Dear Sirs,

I wish to express my opposition to abortion on the grounds of unwanted gender. I am especially opposed to Medicare funding of this kind of abortion. So I support the Madigan bill being considered.

I am against the funding of all abortions. We should not have to pay for people's unwanted children. I abhor all abortion because it is the killing of unborn children.

For many people, having an abortion is merely a convenience for not having thought more carefully about sexual activity and becoming pregnant. If funding were removed from abortions, then people would be much more thoughtful in engaging in unprotected sex.

I support abortion only in the case of serious danger or gang rape.

Yours faithfully,

Peter Evans
