

Senate Enquiry Committee
Parliament Of Australia

It is my submission that in regard to this proposed bill that Senator Bob Brown has everything but the bill changes in his agenda. His bill is;

'Bob Brown's 'euthanasia-and-homosexual-marriage-by-stealth-Bill'.'

I strongly object to the 'greens' abuse of their parliamentary rights. The green party is supposed to be about protecting the environment, instead they use their parliamentary advantage to propose anti-social agendas that will bring down the moral standards of our country.

I absolutely object to this bill as it is against the moral fibre of our existence, based upon the Word of God which is the standard by which I believe this country should be governed.

Yours sincerely,

Mark Parham
