

---

Dear Committee,

My husband and I want to support the John Madigan's "Health Insurance Amendment [Medicare Funding for Certain Types of Abortian] Bill 2013 for the following reasons -

1. We heard on the ABC [89.1] that health care payments are the Government's highest funding. We think that those costs could be reduced if Gendercide was not funded by Medicare. All babies no matter what gender should be welcomed.
2. Aborting a child simply because it is the wrong gender for 'family balancing' is NOT a medical procedure and should not receive Medical Benefits.
3. Medicare money should not be wasted or spent irresponsibly on killing innocent unborn babies.
4. Medicare funding should be used for medical procedures, not for eliminating babies because of their gender.

We ask you all to act responsibly on this Bill.

Yours sincerely,

Bartley Phillips and Betty Phillips
