SUBMISSION OF MARY PATRICIA PRITCHETT.

1. ABORTION IS MURDER

A baby in the womb has a beating heart, moves legs and arms, sucks thumbs, kicks feet, and can survive to adulthood weighing just a few kilograms at birth.

Yet in the great wisdom of the politicians of this land it has been deemed that a baby is not a human being because a few layers of skin separate the baby in the womb

from the baby who has traveled the birth canal to the other side of the layers of skin. therefore prior to birth that baby can be brutally murdered. In times past when there

was some sanity in the leaders of the nation abortion was considered a crime. The question needs to be asked what changed? How do we as human beings say in one

breath that killing a baby is a crime and then in the next breath no it is not a crime anymore because we say go ahead kill all the babies you want to. We are ok with that

we will pass laws allowing you to use all sorts of torture to kill children because we do not want them to interfere with your life, even though your selfish need for unprotected

sex created the baby in the first place. SORRY BUT THIS IS MADNESS

2 KILLING BABIES BECAUSE THEY ARE THE WRONG SEX

Having taken the first step to say we give you permission to murder your children now you say well if you do not want a boy or maybe you do not want a girl, just kill the child of

the unwanted sex until you conceive a baby that you want because that baby is the desired sex.

IF YOU PASS THIS LAW AS WELL THERE WILL BE A HUGE PRICE TO PAY, CAN YOU NOT SEE THAT WE ARE FAST SELF DESTRUCTING AND THE CORRIDORS OF POWER ARE DOING ALL IN THEIR POWER TO HELP THAT PROCESS.

I STRONGLY OPPOSE THE PASSING OF THIS BILL, AND HOLD YOU ACCOUNTABLE FOR THE CONSEQUENCES
