
To Members of the above Committee,
I wish to submit my support for Senator Madigan's bill.

Abortion on the basis of gender selection is not a valid medical procedure and should not be funded by tax payers' money.
We should support the United Nations in their campaign against the discriminatory nature of gender selection.

The law should protect the unborn child in accordance with the UN Convention on the rights of a child.

I am sure most Australians, if they were aware, would not agree with their, ie tax payers' money, being used to fund abortions based on gender selection and thus would support Senator Madigan's Bill.

Yours sincerely,
Elizabeth Golinqi.
