Subject: Renewable Energy Funding - ARENA
Date: Monday, 5 September 2016 11:11:31 AM

Hi All,

Australia's success in various industries in the past has depended on research, innovation, and in many cases, outright government sponsorship.

Surely IT IS VITAL that we carve a stake in the rapidly growing, disruptive, evolving renewable marketplace!

Funding for ARENA is critical – we must ensure Australia's participation in this emerging (planet-saving?) sector is other than as a passive customer.

Cheers,
Gordon
