

I write to oppose this legislation.

1. It will create unemployment. Every witty comedian in the world will be redundant.
2. It may be used as an offensive tool to stifle legitimate criticism of barbaric practises.
3. It is capable of seriously limiting free speech.
4. It strikes against freedom of expression .
5. It is totalitarian in nature.
6. It is reminiscent of the Regimes of the 1930s in Europe which put the World at War.
